Item 5. Public Comment

The emails in this attachment represent all written public comments for **Consent Item 4.b.** submitted to Rent Board Members and/or the Board Secretary before the 5:00 p.m. deadline noted on the June 17, 2021 Board Meeting agenda.

In keeping with the Board's commitment to minimizing the agency's carbon footprint and maximizing efficiency, the following was done in preparing this attachment:

- If an individual emailed the same comment to multiple Board Members *and* to the full Board's collective email address (TheRentBoard@cityofberkeley.info), only the email sent to the full Board was included in this attachment.
- If an individual emailed the same comment to multiple Board Members separately, only one of those emails was included in this attachment.

I can find no reference to the Rent Board previously discussing this matter or of allowing public comment. The last time something like this happened was when the HWCAC entertained a proposal about BDS (Boycott, Divestment, and Sanctions) in October, 2015.

Then 168 people submitted written comments and hundreds spoke at a HWCAC meeting which lasting until 2AM. The HWCAC tabled the motion. I believe they had not even had a chance to read the written public comments before they voted.

I don't think this is within the purview of the Rent Stabilization Board.

The community is deeply divided about anything to do with Israel. Reserving one minute to discuss and decide on such a resolution makes the city look foolish.

Can this resolution be withdrawn?

Dear Berkeley Rent Stabilization Board,

I urge you to vote NO on Resolution 21-12 (agenda item 4b) during this week's Rent Stabilization Board, scheduled for June 17.

This haphazard resolution about the ongoing Israel-Palestinian conflict is factually inaccurate, lacking in nuance and far outside the mission of the board, which is "to regulate residential rent increases in the City of Berkeley and to protect against unwarranted rent increases and evictions and to provide a fair return to property owners."

The people of Berkeley elected you to support tenant rights and address the ongoing housing crisis, NOT to waste taxpayer money commenting on complex international conflicts.

To my knowledge, the Rent Stabilization Board has never commented on an international conflict. Singling out Israel for false condemnation and using inflammatory language like "apartheid" and "ethnic cleansing" sends the wrong message to our diverse community.

According to a recent ADL survey, 77 percent of the American Jews said that they were much more or somewhat more concerned about antisemitism in America since the recent violence in Israel and Gaza. I fear that this resolution will only further inflame the already escalating hate against the Jewish community.

For these reasons, I urge you to focus on the issues that directly impact Berkeley citizens and vote NO on Resolution 21-12.

Berkeley needs work; street paving, housing for homeless, new housing construction, maintaining open spaces etc. You're not an arm of the UN or International Politics. Berkeley knows better than anyone? Arrogance causes us to turn against neighbors.

Sincerely,

I don't know what upsets me more- the inaccurate information and the complete lack of context in resolution 2021-12, or the very fact that the Berkeley Rent Stabilization Board feels free to issue such a divisive and inappropriate proclamation.

You may not realize this, but last month, 3 Jewish institutions in Berkeley were vandalized- the language in this resolution will create an unsafe space for Jewish people and Jewish institutions in our community

In a community fractured by pandemic, employment instability, housing loss, and an affordability crisis, the Rent stabilization Board ought to focus their attention on Berkeley's needs, not on an intractable conflict thousands of miles away.

Please Vote No on Resolution 21-12.

We, long-time Berkeley residents (58 years), strongly urge a “no” vote on the resolution regarding Israel that the Rent Stabilization Board will vote on June 17. We have studied the resolution and find it to be not only inaccurate but inflammatory, with potential to make Jewish residents unsafe at a time when antisemitism is on the rise. The authors of the resolution appear to be unaware of the long and complicated history of the housing situation they address, mischaracterize it, and mistakenly accuse the democratic state of Israel of “apartheid” and “ethnic cleansing.” This is a matter being dealt with by the Israeli courts. Our taxes pay the Board to deal with housing issues in Berkeley and not with international matters.

Dear Rent Board Members,

Given the serious problems of affordable housing and homelessness in Berkeley, it is obvious that your work is of the utmost importance.

Please devote your energies to that work and don't diffuse your efforts, and allow other agendas to take over. What does the resolution on Israel have to do with rent stabilization or Berkeley? Since when does the Rent Stabilization Board deal in foreign policy?

You were elected to serve Berkeley residents in the field of housing, nothing more.

Singling out Israel while using antisemitic tropes and inaccurate language to mischaracterize what's happening on the ground is wrong, and makes Jews in Berkeley and the Bay Area LESS SAFE.

Please don't subvert your purpose by supporting the blatantly antisemitic resolution you are considering.

Thank you.

Dear Rent Board Commissioners:

I urge all of you to vote NO on Resolution 21-12 (agenda item 4b) during the Rent Stabilization Board's June 17 meeting.

As a tax paying citizen of Berkeley, I find that this resolution is completely out of order and should NOT even appear on the agenda of the Berkeley City Rent Stabilization Board. Taking a position on issues involving a foreign country is certainly not within the scope of your Board.

Even if it was your responsibility, the resolution is inaccurate. There is more than enough false accusations about Jews circulating through irresponsible media. Jews do not need a Board of our city to foster more antisemitism.

I urge you to vote NO on Resolution 21-12.

Against Resolution 21-22

I too am concerned about injustices in Israel-Palestine, which is why I lived there and volunteered where I could be helpful. Being on the ground, I was able to help actual people.

How can The Berkley Rent Board help? It might start by resolving its own history. We are on Ohlone Land. We are in Huichin. Here is where we can get traction and do real work.

Unfortunately, Resolution 21-22 has very real unintended impacts. It can inflame baseless hatred amongst our residents, leading us to words and actions toward schoolmates, neighbors, colleagues, renters and landlords. It can stoke harm and fear, and possibly injustice.

I urge the Board not to adopt this resolution.

I am writing to share comment on the absurd news that Berkeley Rent Board members are attempting to issue foreign policy from Milvia Street, as it attempts to pass a resolution accusing Israel of ethnic cleansing.

Like many Berkeleyans, I follow the news. (Unlike many Berkeleyans, I have visited Sheik Jarrah!)

That my city would dare to spend public, civic time making a statement about Sheik Jarrah is embarrassing. Such action is not only irrelevant to your charter, it is also dangerous for your local citizens who are subject to rising antisemitism in the streets. This isn't new for Berkeley, and the obsessive focus on Israel's wrongdoings are antisemitic regardless of who initiates them.

The discussion of foreign affairs on my taxpayer dime is an outrage. Stabilize rents and protect the important needs of Berkeley tenants. Full stop. Seems we have sufficient problems here in Berkeley.

Dear Berkeley Rent Board,

I am appalled at the idea that you would take up a resolution to condemn Israel. While each of you are entitled to your opinions, as an elected body such a resolution goes beyond your mandate and your elected responsibilities. It is a betrayal of the office to which you were elected and the Berkeley residents who elected you. Please remain singularly focused on the local housing issues which you were elected to address. We have an affordable housing crisis, as well as a growing homeless crisis in Berkeley. Do not get distracted. Do not insert your foreign policy opinions into your work as officials elected to local office. You will lose my vote and my trust as a resident of Berkeley if you vote for the Resolution Condemning the Illegal Evictions of Palestinians By the Israeli Government.

I fear that this resolution will only further inflame the already escalating hate against the Jewish community.

For these reasons, I urge you to focus on the issues that directly impact Berkeley citizens and vote NO on Resolution 21-12.

Though the Israeli-Palestinian conflict is deeply troubling, it is important to not oversimplify the positions or acts of either side. As wrong as the Israeli actions have been, "Ethnic cleansing" is a distorted term to apply to this situation.

Dear City of Berkeley Public Comment,

[EXAMPLE LANGUAGE, PLEASE PERSONALIZE, 150 WORDS MAX]

I urge you to vote NO on Resolution 21-12 (agenda item 4b) during the Rent Stabilization Board's June 17 meeting.

This haphazard resolution about the ongoing Israel-Palestinian conflict is not only factually inaccurate and lacking in nuance, but also far outside the Rent Stabilization Board's mandate to protect tenants and address rental costs in Berkeley.

This resolution is unprecedented and singling out Israel for false condemnation and using inflammatory language like "apartheid" and "ethnic cleansing" sends the wrong message to our diverse community.

According to a recent ADL survey, 77 percent of the American Jews said that they were more concerned about antisemitism in America since the recent violence in Israel and Gaza. I fear that this resolution will only further inflame the already escalating hate against the Jewish community.

For these reasons, I urge you to focus on issues that directly impact Berkeley and vote NO on Resolution 21-12.

Dear City of Berkeley Public Comment,

I am deeply dismayed that the Rent Stabilization Board is considering embracing hate by passing Resolution 21-12 (agenda item 4b).

This resolution will only serve to encourage violence against Jews and it will do nothing to solve the Palestinians' problems. This hollow Resolution will do nothing good and falls far outside the Rent Stabilization Board's mandate to protect tenants and address rental costs in Berkeley. If you vote for it, you are partially responsible for escalating and inflaming tensions here in the Bay Area to no positive ends in the Middle East.

Please do not turn a blind eye to antisemitism -- a 75% increase in reports to the ADL -- and think about what this vote will do to actual people and please do your jobs and focus on issues that directly impact Berkeley; vote NO on Resolution 21-12.

Dear Berkeley Rent Stabilization Board,

I urge you to vote NO on Resolution 21-12 (agenda item 4b) during this week's Rent Stabilization Board, scheduled for June 17.

This haphazard resolution about the ongoing Israel-Palestinian conflict is factually inaccurate, lacking in nuance and far outside the mission of the board, which is "to regulate residential rent increases in the City of Berkeley and to protect against unwarranted rent increases and evictions and to provide a fair return to property owners."

The people of Berkeley elected you to support tenant rights and address the ongoing housing crisis, NOT to waste taxpayer money commenting on complex international conflicts.

To my knowledge, the Rent Stabilization Board has never commented on an international conflict. Singling out Israel for false condemnation and using inflammatory language like "apartheid" and "ethnic cleansing" sends the wrong message to our diverse community.

According to a recent ADL survey, 77 percent of the American Jews said that they were much more or somewhat more concerned about antisemitism in America since the recent violence in Israel and Gaza. Just a friendly reminder that throwing false accusations around about Israel - and that includes accusations of "genocide," "ethnic cleansing," "apartheid," "white supremacy," "colonialism," "policies of sexual violence," "policies of killing children," etc- are not only antisemitic blood libel, but also are directly and acutely endangering Jews worldwide. There has been nearly a 600% increase in hate-crimes against Jews this last month or so, and it is directly correlated with these false accusations.

The Nazis used the language of social justice to justify their hatred, violence, and ultimately genocide against us too.

If you really want to be anti-racist and anti-fascist, it's time to examine your anti-Israel and anti-Jewish biases.

Dear City of Berkeley Public Comment,

If adopted, Resolution 21-12 (agenda item 4b) will have real consequences for Berkeley residents who depend on the Rent Board to protect all tenants.

It emboldens Berkeley property owners to illegally refuse housing, harass, or evict Jewish tenants based on ethnicity and religion if it is done under the cover of solidarity with Palestinians in Israel and Palestine.

It signals that Jewish residents - tenants and landlords alike - should not expect fair hearings when issues arise that merit the Rent Board's involvement.

Given Berkeley's profile and influence, it encourages similar endorsements of such discriminatory housing practices throughout the region.

I speak from lived experience in Berkeley where a self-described "activist" landlord questioned me about Israel and then told me directly, "I could never have a Zionist tenant." Thereafter, the apartment was "rented".

I urge you to vote NO on Resolution 21-12 during the Rent Stabilization Board's June 17 meeting.

Sir/Madam,

As a Berkely resident I am highly perturbed at the forthcoming vote on a verifiably false, even incendiary [resolution](#) accusing Israel of "apartheid" and "ethnic cleansing." As someone who grew up in South Africa deeply committed to anti apartheid activities and whose family members were imprisoned along with Nelson Mandela, I forcefully reject the analogy that Israel is an apartheid state. Moreover, to accuse Israel of ethnic cleansing is palpable nonsense. The facts on the ground give the lie to this blood libel.

The resolution as it stands, has the potential of engendering more hate against Jews and Israelis who live in our proud city. None of us wish to see this.

The Rent Board's mandate is to protect tenants and confront the housing crisis in Berkeley. Not to involve itself in complex international matters over disputed territories. I ask therefore, that the Board vote "no" on this inflammatory resolution.

Sincerely yours,

Lenny Kristal ,Ph.D. (Cantab).

As a longtime Berkeley resident I oppose your resolution 21-12. You have no purview or expertise in this matter. Any "Yes" vote in favor is an act of Antisemitism, employing a double standard against Jews, ignoring far more serious human rights and real property abuses.

"The trigger for the most recent escalation of violence in Israel and Palestine" was the firing of 4000 rockets at Israeli civilians. Ignoring that fact means you don't care about civilian deaths, limited to the pesky Jews. Jews cannot own or rent land in Gaza or the west bank; any landowner who sells or rents property to a jew is killed; Jews were forcibly evicted from Egypt, Jordan, Iran, Iraq with no right to return to those lines. Why isn't that ethnic cleansing? Not addressing those extremely serious issues proves you're not interested in property abuses, but only in attacking Jews and the Jewish State.

Dear Berkeley Rent Stabilization Board,

I urge you to vote NO on Resolution 21-12 (agenda item 4b) during this week's Rent Stabilization Board, scheduled for June 17.

This haphazard resolution about the ongoing Israel-Palestinian conflict is factually inaccurate, lacking in nuance and far outside the mission of the board, which is "to regulate residential rent increases in the City of Berkeley and to protect against unwarranted rent increases and evictions and to provide a fair return to property owners."

The people of Berkeley elected you to support tenant rights and address the ongoing housing crisis, NOT to waste taxpayer money commenting on complex international conflicts.

To my knowledge, the Rent Stabilization Board has never commented on an international conflict. Singling out Israel for false condemnation and using inflammatory language like "apartheid" and "ethnic cleansing" sends the wrong message to our diverse community.

According to a recent ADL survey, 77 percent of the American Jews said that they were much more or somewhat more concerned about antisemitism in America since the recent violence in Israel and Gaza. I fear that this resolution will only further inflame the already escalating hate against the Jewish community.

For these reasons, I urge you to focus on the issues that directly impact Berkeley citizens and vote NO on Resolution 21-12.

I fail to see why a rental board has any qualifications that merit making such statements about a conflict thousands of miles away. It's absolutely absurd.

As a long term resident of Berkeley I oppose the recent efforts of the Rent Board to categorize Israel as an apartheid state. This is sheer nonsense and shows complete ignorance about the case at hand in East Jerusalem. This is a case that has been before the Israeli courts for years and is now before the Supreme Court in Israel. At no time has this ever been the subject of Israeli government action. As in the U.S., anyone can sue anyone in Israel. The case revolves around several homes that were indisputably owned by Jews before they were evicted during the 1948 war. The current occupants have refused to pay rent or in any way acknowledge the prior owner's claims. A fair argument can and is made that Jews should not be granted ownership over their pre-1948 homes unless Palestinians are also granted rights to the homes they lost in 1948. I happen to agree with that, and believe that both Jewish and Palestinian claims should be addressed in a peace settlement. But to call this apartheid and ethnic cleansing is ignorant, wrong, and helps nothing.

Dear City of Berkeley Public Comment,

I am a Berkeley resident since 1949 and have lived at my present address since 1961. I consider myself to be for freedom and opportunity for all people all over the world. But I totally fail to see why our Rent Control Board with a narrow designated domain of focus finds it necessary to become involved in one area of international conflict in exception to the dozens areas where conflict and human rights abuses occur daily with thousands of losses of life, liberty or the means of survival. The proposed action on Israel smacks to me of the age-old scourge of anti-semitism because Jews are an easy and well accepted target of hate and discrimination. I am a Holocaust survivor and urge a vote against the proposed anti-Israel resolution.

While it might represent the position of some partisans in Berkeley, California, it is doubtful that it speaks for the entire citizenry. Many would indeed argue that the resolution contains factual inaccuracies, and that it is lacking in nuance.

Clearly Resolution 21-21 is far outside the Rent Stabilization Board's mandate. RSB will have to address the question regarding what it intends to do with this precedence in the future. Will Berkeley's RSB intervene henceforth in all matters pertaining to eviction all around the world?

Please vote NO on Resolution 21-12.

Hello,

This is the first time, to my knowledge, the Rent Stabilization Board is passing a resolution regarding an international conflict and a foreign government policy. By doing so RSB is singling out Jews and Israelis in Berkeley and making them LESS SAFE.

The use of inaccurate and inflammatory language is dangerous. In the past month there's an historic uptick of antisemitism in the US and I strongly believe singling out Israel while using antisemitic tropes is inciting more hate.

Beyond the idea of being at the right side or the wrong side of history- there is a field, an unbiased space- where organizations committed to serve ALL population(regardless of their ethnicity, religion, nationality)- should be.

Berkeley is facing a crisis in affordable housing and concerning growth of homelessness and the Rent Stabilization Board should continue doing all in it's power to protect tenants.

Thank you,
Tamar Levin

Hi,
in response to the BRSB resolution 21-12, I would like to comment that the BRSB never taken an action on the following;

- 1) The Chinese government taking over and annexing Tibet, a free country, nor over the subjugation of Hong Kong, it's treats of taking over Taiwan, nor the genocide it conducts against the moslen Uiguer.
 - 2) Nor, ever uttered a word of condemnation against the Syrian Government and the atrocities it has committed against its own popolation, resulting with 5-6 million refugees, 1/2 a million dead and the destruction of the country.
 - 3) Nor a word about the similar situation in Iraq.
 - 4) Nor ever condemning the Iranian Mulla regime for the imprisening of tens of thousand of people without trial, the hanging, torturing, stoning and arming terrorist organization, fomenting wars and acts of war against civilians.
 - 5) Nor it ever condemn Hamas for launching rockets against Israeli civilians, putting its own Palestinian population in the line of fire and uses them as human shield, therefor getting killed in the cross fire, just the purpose of putting the blame on Israel.
- The BRSB is wrong for taking an action which is outside of its knowledge, or worse, disregarding facts, in order to blame Israel, and consequently promotes antisemitism, as if don't have enough of it.
The BRSB should concentrate on the issues of the Berkeley Housing Shortage, a reason that it was elected for.

Thank you,

Moshe Sarig

The protection of human life and preservation of human dignity are core principles in Judaism. As such, although we are geographically distanced from the suffering and loss of life among Palestinians and Israelis in the extended conflict, it is devastating for those of us in the Berkeley Jewish community. Further, many of us feel a close connection to the violence because our beloved friends and family live there. Advocating for justice and an end to the violence and suffering in the region is critical.

This resolution is not the way. In recent weeks increasing antisemitic speech and actions have many of us here in the Berkeley Jewish community feeling unsafe right here at home. This resolution is likely to add to the conditions we've experienced in recent weeks that lead to increasing antisemitism targeting Jewish Americans in Berkeley and across the Bay Area. I urge the board to vote NO.

Dear Berkeley Rent Stabilization Board,

I urge you to vote NO on Resolution 21-12 (agenda item 4b) during this week's Rent Stabilization Board, scheduled for June 17.

This haphazard resolution about the ongoing Israel-Palestinian conflict is factually inaccurate, lacking in nuance and far outside the mission of the board, which is "to regulate residential rent increases in the City of Berkeley and to protect against unwarranted rent increases and evictions and to provide a fair return to property owners."

The people of Berkeley elected you to support tenant rights and address the ongoing housing crisis, NOT to waste taxpayer money commenting on complex international conflicts.

To my knowledge, the Rent Stabilization Board has never commented on an international conflict. Singling out Israel for false condemnation and using inflammatory language like "apartheid" and "ethnic cleansing" sends the wrong message to our diverse community.

According to a recent ADL survey, 77 percent of the American Jews said that they were much more or somewhat more concerned about antisemitism in America since the recent violence in Israel and Gaza. I fear that this resolution will only further inflame the already escalating hate against the Jewish community.

For these reasons, I urge you to focus on the issues that directly impact Berkeley citizens and vote NO on Resolution 21-12.

Dear Berkeley Rent Stabilization Board,

I urge you to vote NO on Resolution 21-12 (agenda item 4b) during this week's Rent Stabilization Board, scheduled for June 17.

This haphazard resolution about the ongoing Israel-Palestinian conflict is factually inaccurate, lacking in nuance and far outside the mission of the board, which is "to regulate residential rent increases in the City of Berkeley and to protect against unwarranted rent increases and evictions and to provide a fair return to property owners."

The people of Berkeley elected you to support tenant rights and address the ongoing housing crisis, NOT to waste taxpayer money commenting on complex international conflicts.

To my knowledge, the Rent Stabilization Board has never commented on an international conflict. Singling out Israel for false condemnation and using inflammatory language like "apartheid" and "ethnic cleansing" sends the wrong message to our diverse community.

According to a recent ADL survey, 77 percent of the American Jews said that they were much more or somewhat more concerned about antisemitism in America since the recent violence in Israel and Gaza. I fear that this resolution will only further inflame the already escalating hate against the Jewish community.

For these reasons, I urge you to focus on the issues that directly impact Berkeley citizens and vote NO on Resolution 21-12.

I condemn the behavior of the Israeli Government regarding Palestinian rights. I also condemn the Rent Board's decision to make statements about international affairs. Focus on the affordable housing crisis, which is what we elected you to do!

Sincerely,
Jenna Lewis

Dear Berkeley Rent Stabilization Board,

I urge you NOT to pass the Resolution Condemning the Illegal Evictions of Palestinians By the Israeli Government. It is a non—balanced perspective, anti-semitic in nature, and also irrelevant to matters that the rent board should be governing.

I am saddened by, and opposed to, resolution 21-12 which incorporates propaganda that incites divisiveness and hate against the Jewish residents in our community. I suggest you research the issue from all sides first which would unveil some truths about the issue that are currently being ignored. In any case, you are not empowered as the rent Board to support congressional bills in the name of Berkeley residents. This is a clear misuse of your elected position which is to solely focus on Berkeley rent issues. Your focus during this pandemic time should be on keeping Berkeley residents housed, not weighing in on a conflict that obviously has not been researched in depth and which is not in your job description. Please rescind this propaganda filled resolution immediately.

I served on Berkeley's Peace and Justice Commission for eight years. That commission was designed specifically to deflect issues related to Peace and Justice away from the City Council since they were being inundated by issues related to world affairs by a small cadre of activists with an endless laundry lists of complaints. The fact that your board is now being used for a similar means is wrong, especially since it is not related to Berkeley housing whatsoever. Furthermore, not that it should matter, but the "whereas" statements in the resolution are filled with outrageous inaccuracies. I urge all board members to read the attached article which succinctly and factually rebuts all the gross lies within 21-12. <https://www.wsj.com/articles/almost-nothing-youve-heard-about-evictions-in-jerusalem-is-true-11621019410>

There are of course various opinions regarding this long simmering conflict. If elected officials decide to weigh in on this matter that of course is their prerogative. However, unless I am mistaken, members of the rent control board are paid from fees collected from landlords, and where these fees are passed on, from tenants. It seems to me a more productive use of the funds that are collected is in dealing with rent control issues.

Dear Berkeley Rent Stabilization Board,

I urge you to vote NO on Resolution 21-12 (agenda item 4b) during this week's Rent Stabilization Board, scheduled for June 17.

This haphazard resolution about the ongoing Israel-Palestinian conflict is factually inaccurate, lacking in nuance and far outside the mission of the board, which is "to regulate residential rent increases in the City of Berkeley and to protect against unwarranted rent increases and evictions and to provide a fair return to property owners."

The people of Berkeley elected you to support tenant rights and address the ongoing housing crisis, NOT to waste taxpayer money commenting on complex international conflicts.

Dear Berkeley Rent Stabilization Board,

I urge you to vote NO on Resolution 21-12 (agenda item 4b) during this week's Rent Stabilization Board, scheduled for June 17.

This haphazard resolution about the ongoing Israel-Palestinian conflict is factually inaccurate, lacking in nuance and far outside the mission of the board, which is "to regulate residential rent increases in the City of Berkeley and to protect against unwarranted rent increases and evictions and to provide a fair return to property owners."

The people of Berkeley elected you to support tenant rights and address the ongoing housing crisis, NOT to waste taxpayer money commenting on complex international conflicts.

To my knowledge, the Rent Stabilization Board has never commented on an international conflict. Singling out Israel for false condemnation and using inflammatory language like "apartheid" and "ethnic cleansing" sends the wrong message to our diverse community.

According to a recent ADL survey, 77 percent of the American Jews said that they were much more or somewhat more concerned about antisemitism in America since the recent violence in Israel and Gaza. I fear that this resolution will only further inflame the already escalating hate against the Jewish community.

For these reasons, I urge you to focus on the issues that directly impact Berkeley citizens and vote NO on Resolution 21-12.

This letter pretty much says it all. Your "facts" are inflammatory and untrue.

You were elected to do a job unrelated to the issue you're protesting.

Sincerely,

Dear Rent Board Members and other relevant parties,

As a Board whose **stated mission is “to regulate residential rent increases in the City of Berkeley and to protect against unwarranted rent increases and evictions and to provide a fair return to property owners”**, I am appalled that the City of Berkeley Rent Board has determined that you speak for the community with the decision to vote on a foreign policy resolution "accusing Israel of violence, oppression, ethnic cleansing and calling for the “end of American funding of Israeli apartheid.”

This resolution is one sided, inflammatory and does nothing to further a lasting peace between the people of the Middle East. Even more concerning is that the extremist rhetoric may led to an increase in attacks on Israeli-Americans and the local Jewish community, as we have seen worldwide. The use of false accusations against Israel including “apartheid” and “ethnic cleansing” have been used to justify antisemitic violence.

Antisemitic incidents, with 83% referencing the conflict in Gaza and Israel have skyrocketed 438% in the U.K. in the last month. Four men were arrested in London for shouting “F* the Jews. Rape their daughters.” A group of Iranian American Jews were attacked in Los Angeles – one was hospitalized. Jews were assaulted near an anti-Israel rally in downtown Toronto. In our own community, Jewish owned businesses and community centers have been targeted with anti-Israel and antisemitic graffiti.**

As a member of this community, I assure you, you don’t speak for me and I will not vote for anyone who votes for this anti Semitic resolution.

Very truly yours.

Susan Sholin

This resolution about the ongoing Israel-Palestinian conflict is factually inaccurate and also far outside the Board's mandate. In fact, it's likely to endanger Jewish tenants by inflaming antisemitism in the City and making Jews feel this Board is not a safe place they can come to for fair mediation or other services. How can this agency be trusted to mediate local disputes when they so precipitously jump into other, far off disputes they have so unfairly judged?

This resolution is unprecedented and sends the wrong message to our diverse community. As a graduate of U.C. Berkeley a former renter there, it is disheartening to see this kind of intolerance in an agency of the City so many of us love so well.

Please vote NO and don't add fuel to rising antisemitism in the City.

I fear that this resolution will only further inflame the already escalating hate against the Jewish community.

For these reasons, I urge you to focus on the issues that directly impact Berkeley citizens and vote NO on Resolution 21-12.

As a housing activist I am appalled that the Rent Stabilization Board would weigh in on a complex international issue while there is a housing crisis. This proposed resolution is not in the Board's mandate and it is incendiary. Btw I am not Jewish.

Rent Board members –

A few facts to correct false narratives about Israel and Israeli Arabs. The claim Israel is an Apartheid nation is an anti-Semitic myth. Arab Israelis have the same rights as all other Israelis. They serve in the Knesset, as commissioners in government, are doctors, attorneys, CEOs. They serve as justices on Israel's Supreme Court. They have universal health care, higher income levels, longer life expectancy, and more freedoms than any Arab Nation including the Palestinian territories. Polls consistently show that more than 2/3s of Israeli Arabs would rather live in Israel than a Palestinian State. Women , gays, lesbians are afforded full equal rights in Israel but not in the Palestinian territories. In Gaza many women are unable to leave their homes unaccompanied by a man. Israel has tried for peace, but Hamas is a terrorist organization that seeks the destruction of Israel and is the major roadblock to peace . In Bill Clinton's autobiography he endorses Israel's 2000 peace initiative which Arafat rejected. Read it for yourself.

Dear Berkeley Rent Stabilization Board,

I urge you to vote NO on Resolution 21-12 (agenda item 4b) during this week's Rent Stabilization Board, scheduled for June 17.

This haphazard resolution about the ongoing Israel-Palestinian conflict is factually inaccurate, lacking in nuance and far outside the mission of the board, which is "to regulate residential rent increases in the City of Berkeley and to protect against unwarranted rent increases and evictions and to provide a fair return to property owners."

The people of Berkeley elected you to support tenant rights and address the ongoing housing crisis, NOT to waste taxpayer money commenting on complex international conflicts.

To my knowledge, the Rent Stabilization Board has never commented on an international conflict. Singling out Israel for false condemnation and using inflammatory language like "apartheid" and "ethnic cleansing" sends the wrong message to our diverse community.

According to a recent ADL survey, 77 percent of the American Jews said that they were much more or somewhat more concerned about antisemitism in America since the recent violence in Israel and Gaza. I fear that this resolution will only further inflame the already escalating hate against the Jewish community.

For these reasons, I urge you to focus on the issues that directly impact Berkeley citizens and vote NO on Resolution 21-12.

Gross oversimplification of an international historical and legal issue so far out of this board's purview it's astounding. Singling out this action from this hundreds across the globe does far more harm than any good, their wellintention might seek.

Dear City of Berkeley Public Comment,

This Resolution, thought surely well-intentioned and pursuing Justice, is such a gross oversimplification of an international historical and legal issue that so far out of this board's prevue it's honestly shocking. Singling out this foreign real-estate dispute amongst the unfortunate immense amounts of housing injustice transpiring here and across the globe does far more harm than good. Why does the board feel sanctioned to voice an opinion and resolve on this topic? Have you resolved on the theft of property from Jews in Europe during WW2? Or on jews being forced from their homes in Iraq or Morocco? Interesting to note which distant international issues the board feels it has a right to comment and impose it's judgement on and which it does not... all while we have scenes here in Berkeley far far worse than in the subject region of this resolution.

According to studies, Israel's homeless population (including amongst its non-jewish citizens) is around 2500 (https://en.wikipedia.org/wiki/Homelessness_in_Israel). Israel's population is 9 million. The city of Berkeley, with a population 121,000 has over 1000 according to recent counts.

Perhaps this statistic might help redirect some of this board's attention to it's own relative incapacity and failures before it wastes our time and money to voice it's irrelevant and inflammatory opinion on legal ownership of a 6 houses across the world.

Apparently you need to be reminded that this board's job is to: "regulate residential rents; to protect tenants form unwarranted rent increases and arbitrary, discriminatory or retaliatory evictions; to help maintain the diversity of the Berkeley community; and to ensure compliance with legal obligations relating to the rental of housing."

Oddly, no where in the charter does it implore this board to weight in on foreign policy funding. Should the members who've spent their time drafting this resolution like to focus on this issue, perhaps they should pursue so in a more appropriate forum and seek a more appropriate appointment for themselves. The evocation of MLK's words to somehow try to justify relevance or jurisdiction holds only if the Board resolves itself to draft and pursue similar resolutions on every unjust global eviction. I suspect the board might suddenly find less motivation to pursue "justice everywhere" (else). Does the board know that the PA also receives US aid? Have they vetted all of the evictions that they and Hamas has perpetrated against Palestinians?

I'll close by saying that the entitlement this board feels to weight in on this specific issue (relative to so many others), in blatant comparison to its own comparative failure to protect its own residents from homelessness (as compared with those which its choosing to condemn) is truly unconscionable. I urge to board to reject this dangerous, inciting, and counter-productive resolution and redirect its attention to the extremely important task we have entrusted unto it.

Dear City of Berkeley Public Comment,

I strongly object to the biased Resolution 21-12, which gives a one-sided picture of a complex situation. It will cause damage to many Berkeley renters. Both Jews and non-Jews conflate criticism of Israel with criticism of Jews (witness the many news articles about cars flying Palestinian flags driving through London's Jewish neighborhoods shouting "F--k the Jews.>").

Passing this resolution will not help anything, anywhere, but it will lead to a clear perception that the Rent Board is biased against Jews and especially Israelis. This racial bias (whether real or merely perceived) will reflect back on the rent board, making your job harder and more contentious, and, likely leading to lawsuits over bias. A significant number of Jewish Israelis and other Jews live in Berkeley and some have occasion to appear before the rent board. Will you treat them fairly, or force them to turn to the courts? This resolution would be the perfect legal argument that you are biased against them.

To the Mayor and the Berkeley Rent Stabilization Board,

I have just learned about the upcoming foreign policy vote of the rent stabilization board concerning Israel Palestine. I am a progressive observant Jew with Palestinian friends, deep investment in lasting peace in Israel Palestine, and a profound love of the land of Israel which Jews have prayed and yearned for for thousands of years. I also love the city of Berkeley, a place where I have lived, raised my children and a place where I have worshipped as a Jew.

I know that our progressive city includes many people with strong opinions and high ideals and I know this means that we often take a stand on important national and international issues. For the most part I respect the drive and yearning for justice that is such a part of the character of this special city.

That said, as a Jew, I am worried about the lack of nuanced understanding of the complexities of the nature of the conflict in Israel Palestine. I am particularly worried that this lack of nuance is leading to a marked increase in anti-Jewish sentiment that feels all-too familiar and that these sentiments are leading to a rise in anti-Jewish hate crimes and a frightening choice to turn a blind eye to the dangers posed to the Jewish community. I ask that you [please read this article which explains very well the reason that Jews are increasingly afraid.](#)

Please please, I ask that you focus your work on what you were elected to focus on - the important work of rent stabilization and affordable housing. If you are going to condemn Israel, then please give equal attention to every other foreign power that has taken part in actions that you deem inhumane, including our own US government. I'm not sure I would say that this would be a worthwhile focus for your work, but if you must do this, then please do it all the way and do not single out one very specific country above all others.

Thank you,

Tania Schweig

I urge the Board to reject Resolution 21-12.

While I appreciate the Board's intent, the resolution is inflammatory and inaccurate.

It's often claimed that statements condemning Israel are meant to criticize its government rather than to demonize Jews worldwide. Perhaps the Board is capable of making such fine distinctions—I'm not sure they can be made—but one look at the recent violence against Jews nationwide makes clear the hollowness of this logic when it's set loose in public.

I've lived all over the world. Never have I been subjected to more bigotry than since moving to Berkeley ten years ago. Before COVID, I'd walk to synagogue wearing my yarmulke. I've had slurs screamed at me, been sprayed with a water gun while carrying my infant daughter, and had bottles thrown at my head. Passing this resolution contributes to an existing environment where Jews are acceptable targets.

The people of Berkeley elected you to support tenant rights and address the ongoing housing crisis, **NOT** to waste taxpayer money commenting on complex international conflicts.

To my knowledge, the Rent Stabilization Board has never commented on an international conflict. Singling out Israel for false condemnation and using inflammatory language like "apartheid" and "ethnic cleansing" sends the wrong message to our diverse community.

According to a recent ADL survey, 77 percent of the American Jews said that they were much more or somewhat more concerned about antisemitism in America since the recent violence in Israel and Gaza. I fear that this resolution will only further inflame the already escalating hate against the Jewish community.

For these reasons, I urge you to focus on the issues that directly impact Berkeley citizens and vote **NO** on Resolution 21-12.

This has absolutely nothing to do with any issues concerning rent or tenants' rights.

Sincerely,

I am writing to object to the Board's intention to consider a resolution which takes a partisan stand on the Israeli-Palestine conflict.

This is a challenging issue for knowledgeable compassionate persons who represent both sides of the conflict.

It is not an issue suitable for action by our local Rent Board, especially at a time when we have a trying homeless problem to deal with.

The Rent Board should not let itself be a tool for those who seek divisive and anti-semitic community polarization.

Dear City of Berkeley Public Comment,

I urge you to vote NO on Resolution 21-12 (agenda item 4b) during the Rent Stabilization Board's June 17 meeting.

This haphazard resolution about the ongoing Israel-Palestinian conflict is not only factually inaccurate and lacking in nuance, but also well outside the Rent Stabilization Board's mandate to protect tenants and address rental costs in Berkeley.

This resolution is unprecedented and singling out Israel for false condemnation and using inflammatory language like "apartheid" and "ethnic cleansing" sends the wrong message to our diverse community. Israel's current cabinet is as diverse as they come with a Muslim-Arab serving as Israel's Minister for Regional Cooperation, A black woman serving as Israel's minister for immigration and absorption, an openly gay man serving as the minister of health and one yet to be named deputy minister who comes from one of Israel's largest Islamist political groups. Hardly an apartheid state.

Furthermore, according to a recent ADL survey, 77 percent of the American Jews said that they were more concerned about antisemitism in America since the recent violence in Israel and Gaza. This resolution will only further inflame the already escalating hate against the Jewish community.

For these reasons, I urge you to focus on issues that directly impact Berkeley and vote NO on Resolution 21-12.

WARNING: This is not a City of Berkeley email. Do not click links or attachments unless you trust the sender and know the content is safe.

To the Berkeley Rent Stabilization Board,

The resolution "Illegal evictions of Palestinians by the Israeli Government " is factually inaccurate and violates the Rent Board's mission.

This is another attempt to insert anti-Israel propaganda into Berkeley local affairs. It is divisive and destructive. It inflames hatred against Israelis, Zionists and, by extension, all Jews. This is not "legitimate criticism of Israel" —instead it is misinformation disguised as social justice, with the purpose of demonizing Israel. The fact that some Jews buy into the distortions does not alter their malevolent nature. Most importantly, the Rent Board is betraying the trust of Berkeley citizens by stepping into territory that is clearly outside its bounds.

Some facts:

The Sheikh Jarrah issue is a private property dispute and not an action of the Israeli government.

There are no "settlers" involved. Rather, there are property owners with clear title dating back to 1875. Israeli courts uphold Palestinian ownership when *they* have clear title.

In an effort to avoid evictions, Israeli courts came up with a compromise: Palestinian tenants would pay rent to the Jewish owners and, in exchange, be considered “protected tenants” —protected from eviction in perpetuity. The present eviction threat could be avoided by adhering to this compromise.

There is no apartheid or ethnic cleansing in Israel, no matter how fashionable it is to throw these accusations around.

Finally, the Rent Board is not empowered to take positions on international matters. Please focus on the mission we elected you for: “The mission of the Rent Stabilization Board is to regulate residential rent increases in the City of Berkeley and to protect against unwarranted rent increases and evictions and to provide a fair return to property owners.”

If Berkeley is truly to “stand united against hate” this resolution must be defeated.

Dear Berkeley Rent Stabilization Board,

I urge you to vote NO on Resolution 21-12 (agenda item 4b) during this week's Rent Stabilization Board, scheduled for June 17.

This haphazard resolution about the ongoing Israel-Palestinian conflict is factually inaccurate, lacking in nuance and far outside the mission of the board, which is "to regulate residential rent increases in the City of Berkeley and to protect against unwarranted rent increases and evictions and to provide a fair return to property owners."

The people of Berkeley elected you to support tenant rights and address the ongoing housing crisis, NOT to waste taxpayer money commenting on complex international conflicts.

This haphazard resolution about the ongoing Israel-Palestinian conflict is factually inaccurate, lacking in nuance and far outside the mission of the board, which is "to regulate residential rent increases in the City of Berkeley and to protect against unwarranted rent increases and evictions and to provide a fair return to property owners."

The people of Berkeley elected you to support tenant rights and address the ongoing housing crisis, NOT to waste taxpayer money commenting on complex international conflicts.

To my knowledge, the Rent Stabilization Board has never commented on an international conflict. Singling out Israel for false condemnation and using inflammatory language like "apartheid" and "ethnic cleansing" sends the wrong message to our diverse community.

According to a recent ADL survey, 77 percent of the American Jews said that they were much more or somewhat more concerned about antisemitism in America since the recent violence in Israel and Gaza. I fear that this resolution will only further inflame the already escalating hate against the Jewish community.

For these reasons, I urge you to focus on the issues that directly impact Berkeley citizens and vote NO on Resolution 21-12.

I am a Berkeley public school teacher of 26 years. My dad is a Holocaust survivor. Israel is the only democracy in the Middle East where Jews can live. Israel is a very special place, and the new government will be helping to make positive change

Estimadas/os miembros de la Junta de Estabilización de Rentas de Berkeley. Mi nombre es Yuridia y soy una residente del área de la Bahía.

Les escribo esta carta, porque estoy preocupada por el auge que está tomando el antisemitismo en algunos lugares de nuestra comunidad desde hace poco más de un mes.

He tenido conocimiento de una resolución que ustedes han presentado. Expresando opiniones sesgadas que no se corresponden a la realidad, y presentándolas como hechos objetivos.

Soy una mujer de espíritu crítico y en ocasiones he criticado las políticas del gobierno israelí. Los judíos lo hacemos todo el tiempo, porque debatimos y tenemos opiniones distintas. Y lo hacemos porque creemos en la sociedad democrática.

En Israel hay diferentes partidos en la Kneset. En los países árabes las democracias brillan por su ausencia. De ahí el compromiso y la necesidad de apoyar a los refugiados de tantos países. Yo misma como mujer transgénero he participado en eventos con mujeres transgénero de Siria e Irak en un ambiente de paz y aprecio mutuo.

La reciente resolución que ustedes aprobaron va más allá de la legítima crítica democrática, y se convierte en antisemitismo y crimen de odio. Va más allá de una discusión política, porque implica una culpabilización, asociando al Estado Israel con la política del apartheid. Les recuerdo que en Israel hay una importante población árabe que goza de plenos derechos de ciudadanía. Y culpando a Israel de estar haciendo una limpieza étnica en los Territorios Palestinos, cuando es Hamás quien tiene aterrorizada a su propia población y secuestrada las instituciones de autogobierno que se crearon tras los acuerdos de paz.

Les recuerdo que la Junta de Estabilización de Rentas tiene un mandato popular, que es proteger a los inquilinos y enfrentar la crisis de la vivienda en la ciudad de Berkeley. Entrar en este tipo de debates sobre conflictos internacionales sin tener un conocimiento exacto de la realidad es muy peligroso.

Les invito a participar con la comunidad judía y la comunidad árabe a hacer cosas que ayuden a la paz y la convivencia pacífica. En nuestro entorno árabes y judíos vivimos en paz. Yo misma tengo una excelente relación con mis vecinos yemeníes. Este tipo de declaraciones no ayuda a la convivencia, y nos pone a los judíos en la diana de personas prejuiciosas que pueden atacarnos por motivos étnicos o religiosos.

Señalar a Israel con esa resolución no ayudará a traer la paz. Más bien traerá el conflicto a nuestra comunidad.

Dear Rent Board,

Please vote AGAINST this resolution.

I'm a Jewish Berkeley resident and no fan of the current Israeli government. Please recognize that Israeli-Palestinian issues are very very difficult to understand and are not best served by loud pronouncements on either side. Best you stay out of this difficult issue that is not at all in your purview. I do not agree with the evictions mentioned in this declaration, but am also revolted by the description of Israel as an apartheid state. Please just stay out of global issues and do your job in Berkeley that we pay you for. Thank you.

Esteemed Board Members,

I urge you to rescind your resolution that uses one-sided propaganda to incite Anti-Semitism under the disguise of Anti-Zionism against the Jewish citizens of our community. This a gross overstepping of your elected position and inappropriate use of worktime for political purposes. This has nothing to do with your elected position to ensure housing for all residents of the community, especially during these tough times when many families struggle.

I urge BRSB to rescind the Resolution Condemning the Illegal Evictions of Palestinians By the Israeli Government. With it, you misuse the official City of Berkeley public website for propaganda. BRSB should not be weighing in on Congressional legislation, as it oversteps the mission of the BRSB. Such statement is an incitement to divisiveness in the community inside and beyond Berkeley. Finally, it demonstrates, that BRSB members are using their work time which is paid by BRSB fees for political purposes to support a political agenda that contains distortions, lies, and demonization of Israel. Please rescind this propaganda filled resolution immediately.

Dear City of Berkeley Public Comment,

Please vote **NO** on Resolution 21-12 (agenda item 4b).

The Rent Stabilization Board's mandate is to protect tenants and control rental costs in Berkeley, not to weigh in on international affairs with an inaccurate and non-nuanced resolution. In addition to being off mission, this resolution does nothing to promote peace in the region, and is hurtful and divisive.

As an identifiable Jew, I fear that this resolution will exacerbate that antisemitic rhetoric and violence that has been directed at Jews since the Hamas-Israel conflict began. People are entitled to feel what they feel, but not to act with impunity, and the Jewish community has been targeted with increasing acts of violence. All hate and violence are unacceptable, and I hope you won't contribute to an atmosphere that puts Jews in Berkeley like me and my family at greater risk.

Please vote **NO** on Resolution 21-12, and stay focused on issues that directly impact Berkeley tenants and residents.

Dear City of Berkeley Public Comment,

To paraphrase Ishmael Khaldi, Israel's first Bedouin diplomat, "Many other non-Jewish Israelis such as Druze, Bahai, Bedouin, Christians and Muslims, live in one of the most culturally diversified societies and the only true democracy in the Middle East. Like America, Israeli society is far from perfect, but let us deal honestly. By any yardstick you choose - educational opportunity, economic development, women's and gay rights, freedom of speech and assembly, legislative representation - Israel's minorities fare far better than any other country in the Middle East. For those of you who are open to dialogue and not blinded by a hateful ideology: If you are really idealistic and committed to a better world, stop with the false rhetoric. We need moderate people to come together in good faith to help find the path to relieve the human suffering on both sides of the Israel-Palestinian conflict. Vilification and false labeling is a blind alley that is unjust and takes us nowhere. You deny Israel the fundamental right of every society to defend itself: You condemn Israel for building a security barrier to protect its citizens from suicide bombers and for striking at buildings from which missiles are launched at its cities - but you never offer an alternative. Aren't you practicing yourself a deep form of racism by denying an entire society the right to defend itself? Your criticism is willfully hypocritical: Do Israel's Arab citizens suffer from disadvantage? You better believe it. Do African Americans 10 minutes from the Berkeley campus suffer from disadvantage - you better believe it, too. So should we launch a Berkeley Apartheid Week, or should we seek real ways to better our societies and make opportunity more available?

You are betraying the moderate Muslims and Jews who are working to achieve peace: Your radicalism is undermining the forces for peace in Israel and in the Palestinian territories. We are working hard to move toward a peace agreement that recognizes the legitimate rights of both Israel and the Palestinian people, and you are tearing down by falsely vilifying one side.

...If Israel were an apartheid state, I would not have been appointed here, nor would I have chosen to take upon myself this duty. There are many Arabs, both within Israel and in the Palestinian territories who have taken great courage to walk the path of peace. You should stand with us, rather than against us."

I urge you to vote NO on Resolution 21-12 (agenda item 4b) during this week's Rent Stabilization Board, scheduled for June 17.

This haphazard resolution about the ongoing Israel-Palestinian conflict is factually inaccurate, lacking in nuance and far outside the mission of the board, which is "to regulate residential rent increases in the City of Berkeley and to protect against unwarranted rent increases and evictions and to provide a fair return to property owners."

The people of Berkeley elected you to support tenant rights and address the ongoing housing crisis, NOT to waste taxpayer money commenting on complex international conflicts.

To my knowledge, the Rent Stabilization Board has never commented on an international conflict. Singling out Israel for false condemnation and using inflammatory language like "apartheid" and "ethnic cleansing" sends the wrong message to our diverse community.

According to a recent ADL survey, 77 percent of the American Jews said that they were much more or somewhat more concerned about antisemitism in America since the recent violence in Israel and Gaza. I fear that this resolution will only further inflame the already escalating hate against the Jewish community.

For these reasons, I urge you to focus on the issues that directly impact Berkeley citizens and vote NO on Resolution 21-12.

These international issues are out of your purview and if you continue to entangle them in your business operations, we can only assume that you are anti Semitic. Remember the Martin Neimoller quote.."At first they came for the socialists...."

The resolution "Illegal evictions of Palestinians by the Israeli Government " is factually inaccurate and violates the Rent Board's mission.

Some facts:

This is a private property dispute and not an action of the Israeli government.

There are no "settlers" involved. Rather, there are property owners with clear title dating back to 1875. Israeli courts uphold Palestinian ownership when *they* have clear title.

In an effort to avoid evictions, Israeli courts came up with a compromise: Palestinian tenants would pay rent to the Jewish owners and, in exchange, be considered "protected tenants" — protected from eviction in perpetuity. The present eviction threat could be avoided by adhering to this compromise.

There is no apartheid or ethnic cleansing in Israel, no matter how fashionable it is to throw these accusations around.

Finally, the Rent Board is not empowered to take positions on international matters. Focus on the mission we elected you for.

I read, with some concern, that the Rent Stabilization Board is considering making a statement about Israel. While I agree that the conduct of the Israeli government in regards to the Palestinians has been abhorrent, it seems clear to me that this statement coming from the RSP would be totally inappropriate coming from this body and totally outside of the scope of the mission of the board. There are, to be sure, innumerable horrors being committed around the world - towards ethnic and religious groups, environmentally, economically and more. And many that need calling out and the world's attention. But, by singling out Israel in this strange way, unrelated to the work of the board, it risks sounding ways that are probably unintentional.

The housing crisis in Berkeley and the Bay Area is a HUGE problem. I would advocate that the RSB work on its mandated mission and those issues tangential and related to it but not make a statement about Israel. Anti-semitic acts are on the rise in the US and this could potentially fuel the flame.

Respectfully,

Dear City of Berkeley Public Comment,

Resolution 21-12 does not seem to have been subject to public scrutiny.
The resolution contains many claims with no documentation of facts.

The Sheikh Jarrah evictions were brought against a dozen residents who had stopped paying rent; those paying rent are not being evicted. There are significant legal issues in this case, which the Rent Stabilization Board does not have sufficient legal background to judge.

Councilmember Kriss Worthington wrote to the City Council on October 13, 2015:

"In previous years, the intensity of the controversies surrounding the debate of Israel and Palestine and divestiture has led to a significant increase in hate crimes, particularly immediately after these debates."

The number of antisemitic incidents has exploded recently.
Adding more false, undocumented claims will not help.

Please vote NO on Resolution 21-12 (agenda item 4b) at the Rent Stabilization Board.

Dear City of Berkeley Public Comment,

I urge you to vote NO on Resolution 21-12 (agenda item 4b) during the Rent Stabilization Board's June 17 meeting.

This haphazard resolution about the ongoing Israel-Palestinian conflict is not only factually inaccurate and lacking in nuance, but also far outside the Rent Stabilization Board's mandate to protect tenants and address rental costs in Berkeley.

This resolution is unprecedented and singling out Israel for false condemnation and using inflammatory language like "apartheid" and "ethnic cleansing" sends the wrong message to our diverse community. I do not like to throw around the term "anti-Semitism" lightly. However, the world has faced many challenges with eviction policies over the years. For example, just last year there was a widely publicized wave of evictions in Italy of Roma people (<https://www.amnesty.org/en/documents/eur30/0354/2019/en/>). Considering that the Rent Board did not choose to address those topics, and that this is the first resolution in the Rent Board's history the focuses on evictions in a foreign country, and considering that it singles out evictions in Israel - the only Jewish state in the world, I find it hard to reach any other conclusion that is not tainted with implicit anti-Semitic notions.

According to a recent ADL survey, 77 percent of the American Jews said that they were more concerned about antisemitism in America since the recent violence in Israel and Gaza. I fear that this resolution will only further inflame the already escalating hate against the Jewish community.

The rent board faces so many more important challenges to deal with. I am a graduate student at UC Berkeley, living a a rent controlled apartment, but my rent control depends on my house-mate. If my house-mate leaves, rent control resets. Considering the UC Berkeley students are some of the lowest-income residents in Berkeley, and students are known to move often and change housemate, this would seem to me like a topic the rent board could address that would have a direct impact on it's constituents and be able to exercise its jurisdiction, as opposed to alienating local constituents such as myself through declarative statements based on bias and misinformation. Even the discussion of this resolution gives me serious concerns and doubts regarding the commitment of the current rent board to the real issues facing low-income rent-controlled residents in Berkeley such as myself.

For these reasons, I urge you to focus on issues that directly impact Berkeley and vote NO on Resolution 21-12.

As a Berkeley resident, I urge you to rescind the resolution concern the Sheik Jarrah evictions. You are overstepping BRSB's mission (to regulate rent and provide a fair return to property owners) by making foreign policy. I am appalled you didn't thoroughly investigate the history. Jewish owners were not compensated when Jordan took control of the dwellings in 1948 and as a conservator subsequently rented them to Arabs. Four of 28 Arab families in these dwelling are facing eviction due to non-payment of rent. BRSB accuses Israel of violence, oppression, and ethnic cleansing against Arabs when Jews and Israel have been the victims of violence, oppression, and ethnic cleansing by many Arab/Moslem countries. **Inaccurate statements and resolutions about Israel, can lead to hate, violence, and murder against Jews and other minorities.** FYI When Jews had to leave Arab/Moslem countries, most were never compensated for their property.

Dear Chair Leah Simon-Weisberg,

I urge you to vote NO on Resolution 21-12 (agenda item 4b) during this week's Rent Stabilization Board, scheduled for June 17.

This haphazard resolution about the ongoing Israel-Palestinian conflict is factually inaccurate, lacking in nuance and far outside the mission of the board, which is "to regulate residential rent increases in the City of Berkeley and to protect against unwarranted rent increases and evictions and to provide a fair return to property owners."

The people of Berkeley elected you to support tenant rights and address the ongoing housing crisis, NOT to waste taxpayer money commenting on complex international conflicts.

To my knowledge, the Rent Stabilization Board has never commented on an international conflict. Singling out Israel for false condemnation and using inflammatory language like "apartheid" and "ethnic cleansing" sends the wrong message to our diverse community.

According to a recent ADL survey, 77 percent of the American Jews said that they were much more or somewhat more concerned about antisemitism in America since the recent violence in Israel and Gaza. I fear that this resolution will only further inflame the already escalating hate against the Jewish community.

For these reasons, I urge you to focus on the issues that directly impact Berkeley citizens and vote NO on Resolution 21-12.

Sincerely,
Rachel Berinsky

WARNING: This is not a City of Berkeley email. Do not click links or attachments unless you trust the sender and know the content is safe.

Dear Mr. Alpert and Mr. Arreguin,

I have learned that the difficult situation in Sheik Jarra, Jerusalem, is basically a rest estate problem, according to my Jerusalem friend.

She says the issue clearly is not 'ethnic cleansing,' because the population of the ethnic group in question is getting larger not smaller. She believes the source of the problem is that some of the Arab tenants are continuing to refuse — for decades—to pay rent to the property owners, who have established legal ownership from Ottoman documents from 1895.

Are you familiar with such a claim?

If'm wondering what the Berkeley Rent Board recommends in a situation when a tenant refuses to pay rent. Would the tenant be asked to leave?

I would very much appreciate an answer. Some neighbors and I have been chatting about this disturbing story and would appreciate your comments.

Thanks,

June S. Brott

As a citizen of Berkeley who elected you to the BRSB, I urge you not to vote for this resolution that uses propaganda that incites divisiveness and hate against the Jewish residents in our community. I was very disappointed to see a foreign policy item on this weeks Berkeley Rent Board consent calendar, and I am deeply offended to see the words "ethnic cleansing" and apartheid inappropriately used to describe an eviction that is taking place because tenants refused to pay rent.

For more information on the complexities of this case which involved decades in court, see [Primer on Sheikh Jarrah Property Claims » ngomonitor \(ngo-monitor.org\)](#) , or [Sheikh Jarrah: A legal background \(jns.org\)](#).

"According to a 1989 High Court decision, and re-affirmed repeatedly in subsequent cases, as in the case of any tenant living on someone else's property, residents living on the land owned by these organizations were required to pay rent to the organizations that owned the properties. Their failure to do so, along with instances of illegal building and illegally renting properties to others, resulted in the current legal proceedings against them, culminating in the District Court decision."

This article is also very appropriate, given the one-sided, inflammatory language in the Berkeley Rent Board's resolution. [Scandalous media lies about Sheikh Jarrah feed a false narrative \(jns.org\)](#)

"After Israel liberated these areas in the 1967 Six-Day War, the Jewish families who had had their homes and lands confiscated—and had the deeds to prove it—began proceedings to reclaim them. In 1972, these claims were accepted by the courts, and ownership was returned to the original owners. An agreement was reached, according to which the Arab families recognized the Jews' ownership and in return received the status of protected tenants. As part of the agreement, the families were afforded long-term rental rights and undertook to pay rent to the owners, as well as to maintain the apartments. In practice, despite agreeing to do so, no rent was paid. Like all tenants who refuse to pay their agreed rent and damage property, they were legally called to leave. Eviction notices were issued, but the tenants refused to leave, despite exhausting all legal avenues open to them. "

There have been 3 incidents of vandalism in Berkeley last month, directed towards Jewish institutions. The divisive and widely inappropriate language of your resolution will simply continue to fan the flames of anti-semitism in our community, demonizing Israeli-Americans and Jews in general. Please remove resolution RSB 2021-12 from the June 17 consent calendar.

Thank you.

To whom this may concern:

I write in strong opposition to the proposed Resolution Condemning the Illegal Evictions of Palestinians By the Israeli Government. It is one-sided and lacks necessary historical and legal context. Moreover, it is entirely outside of the scope of the mandate of this board. At a time when homeless is at an all time high, and our streets are covered in encampments, it is extremely disappointing to see our public officials spending their time on foreign policy issues entirely outside the scope of their mandate to serve.

Please focus on the work you have been tasked with and elected to do.

Re: e-mail comment to be read aloud during public comment

Berkeley Rent Stabilization Board,

WHY is a city rent stabilization board spending their time on a foreign country's internal affairs?!

This is absurd and performative virtue signaling at odds with reality. The legal owners of the property have attempted to collect rent for many decades to no avail. The current occupants have refused to pay rent as any tenant in any place in the world would be expected to pay. Therefore this property dispute in question is undergoing the legal process in the Israeli legal system. It should be allowed to play out without foreign interference as every other country in the world would expect.

Maybe this body should worry about making the most expensive college housing market in America more accessible and affordable instead of focusing on the world's only Jewish state while ignoring issues in every other country in the world.

Lastly to very erroneously claim Israel is an "apartheid" country is further detachment from reality and demonstrates a very disturbing level of ignorance of the facts. There are over 1 million Arab Israelis who have the exact same rights as every other Israeli and includes Arab Israelis on the country's Supreme Court, over a dozen Arab members of the parliament, and historically the current government includes numerous Arab members in significant positions of power. Every Arab citizen of Israel has full and equal rights to every other Israeli citizen regardless of race, religion, or ethnicity. Please stop with this profound libel and slander.

Sincerely troubled,

Dear Ms. Mueller,

You are correct: I checked your message with the regard to the link and I also do not see any text In the link. There must be a technical error.

Please let me refer to refer to the Rent Stabilizations' Board's announcement which disturbs me.

[https://www.cityofberkeley.info/uploadedFiles/Rent_Stabilization_Board/Level_3_-_General/CONSENT_Item%204.b._Condemning%20Illegal%20Evictions%20of%20Palestinians_FINAL\(1\).pdf](https://www.cityofberkeley.info/uploadedFiles/Rent_Stabilization_Board/Level_3_-_General/CONSENT_Item%204.b._Condemning%20Illegal%20Evictions%20of%20Palestinians_FINAL(1).pdf)

I object to the inclusion of the language of the resolution which claims that there is a Resolution Condemning the Illegal Evictions of Palestinians By the Israeli Government. This is incorrect and should not be stated as a fact in the resolution. It is a falsehood.

In any case, the Berkeley Stabilization board should deal with issues in the Berkeley community and not delve in foreign policy.

Thank you very much for contacting me and making me aware of the error in the link.

the Berkeley Rent Stabilization elected board members have decided to issue a resolution in support of the Palestinian version of events around the war, using Hamas language and BDS language, and in support of McCollumb's bill that accuses Israel of abusing children, and that wants to make sure that US tax dollars do not go toward imprisoning "children". Here is their resolution:

Here is what I am writing to them. It's 148 words. The maximum allowed is 150 words.

As a citizen of Berkeley who elected you to the BRSB, I urge you to rescind your resolution that uses propaganda that incites divisiveness and hate against the Jewish residents in our community. Nor are you empowered as the rent Board to support congressional bills in the name of Berkeley residents. Your focus during this pandemic time should be on keeping Berkeley residents housed, not weighing in on a conflict that you know nothing about, and which is not in your job description. Please rescind this propaganda filled resolution immediately.

I hope a lot of you will submit your emails in advance as indicated, and show up to speak at this board meeting. The resolution will be voted on at the June 17th meeting, at 7:00 zoom link below and email submission instructions.

Suggestion focuses for comments to the BRSB about their political statement: misuse of official City of Berkeley public website for propaganda; weighing in on Congressional legislation, overstepping their mission as the BRSB; incitement to divisiveness in our Berkeley Community; using their work time which is paid by BRSB fees for political purposes to support a political agenda that contains distortions, lies, and demonization of Israel. etc.

They accept email submissions prior to the meeting, which subsequently can be read at the meeting. Would you be interested in doing this? Let me know by sending me an email with the word, "Action done." It's a time sensitive issue since they meet on June 17th. You can also send an email without showing up, but I think it would make a bigger impact on them if we do attend the meeting.

Dear City of Berkeley Public Comment,

I urge you to vote NO on Resolution 21-12 (agenda item 4b) during the Rent Stabilization Board's June 17 meeting.

This haphazard resolution about the ongoing Israel-Palestinian conflict is not only factually inaccurate and lacking in nuance, but also far outside the Rent Stabilization Board's mandate to protect tenants and address rental costs in Berkeley.

This resolution is unprecedented and singling out Israel for false condemnation and using inflammatory language like "apartheid" and "ethnic cleansing" sends the wrong message to our diverse community.

According to a recent ADL survey, 77 percent of the American Jews said that they were more concerned about antisemitism in America since the recent violence in Israel and Gaza. I fear that this resolution will only further inflame the already escalating hate against the Jewish community.

For these reasons, I urge you to focus on issues that directly impact Berkeley and vote NO on Resolution 21-12.

Dear Berkeley Rent Stabilization Board,

I urge you to vote NO on Resolution 21-12 (agenda item 4b) during this week's Rent Stabilization Board, scheduled for June 17.

This haphazard resolution about the ongoing Israel-Palestinian conflict is factually inaccurate, lacking in nuance and far outside the mission of the board, which is "to regulate residential rent increases in the City of Berkeley and to protect against unwarranted rent increases and evictions and to provide a fair return to property owners."

The people of Berkeley elected you to support tenant rights and address the ongoing housing crisis, NOT to waste taxpayer money commenting on complex international conflicts.

To my knowledge, the Rent Stabilization Board has never commented on an international conflict. Singling out Israel for false condemnation and using inflammatory language like "apartheid" and "ethnic cleansing" sends the wrong message to our diverse community.

According to a recent ADL survey, 77 percent of the American Jews said that they were much more or somewhat more concerned about antisemitism in America since the recent violence in Israel and Gaza. I fear that this resolution will only further inflame the already escalating hate against the Jewish community.

For these reasons, I urge you to focus on the issues that directly impact Berkeley citizens and vote NO on Resolution 21-12.

I may not live in Berkeley however I worked and served there from 1976 to 1999. I know my customers who still live in Berkeley feel as I do. I am also Jewish and feel strongly about the above resolution and do urge a NO vote.

Sincerely,
Ken Saltzstine

Dear City of Berkeley Public Comment,

I urge you to vote NO on Resolution 21-12 (agenda item 4b) during the Rent Stabilization Board's June 17 meeting.

The point of the Rent Stabilization Board is to protect tenants, and to improve access to housing. The Rent Board members were not elected to make international policy.

At this time of housing affordability crisis the rent board should focus preserving and creating affordable housing.

For these reasons, I urge you to focus on issues that directly impact Berkeley and vote NO on Resolution 21-12.

Dear City of Berkeley Public Comment,

[EXAMPLE LANGUAGE, PLEASE PERSONALIZE, 150 WORDS MAX]

I urge you to vote NO on Resolution 21-12 (agenda item 4b) during the Rent Stabilization Board's June 17 meeting.

This haphazard resolution about the ongoing Israel-Palestinian conflict is not only factually inaccurate and lacking in nuance, but also far outside the Rent Stabilization Board's mandate to protect tenants and address rental costs in Berkeley.

This resolution is unprecedented and singling out Israel for false condemnation and using inflammatory language like "apartheid" and "ethnic cleansing" sends the wrong message to our diverse community.

I urge you to focus on issues that directly impact Berkeley for which you were elected by the residents of Berkeley and stop wasting tax payer's dollars working on issues that you have no knowledge about and you are not qualified to opine as a public servant.

Vote NO on Resolution 21-12.

Dear Berkeley Rent Stabilization Board,

I urge you to vote NO on Resolution 21-12 (agenda item 4b) during this week's Rent Stabilization Board, scheduled for June 17.

This haphazard resolution about the ongoing Israel-Palestinian conflict is factually inaccurate, lacking in nuance and far outside the mission of the board, which is "to regulate residential rent increases in the City of Berkeley and to protect against unwarranted rent increases and evictions and to provide a fair return to property owners."

The people of Berkeley elected you to support tenant rights and address the ongoing housing crisis, NOT to waste taxpayer money commenting on complex international conflicts.

To my knowledge, the Rent Stabilization Board has never commented on an international conflict. Singling out Israel for false condemnation and using inflammatory language like "apartheid" and "ethnic cleansing" sends the wrong message to our diverse community.

According to a recent ADL survey, 77 percent of the American Jews said that they were much more or somewhat more concerned about antisemitism in America since the recent violence in Israel and Gaza. I fear that this resolution will only further inflame the already escalating hate against the Jewish community.

For these reasons, I urge you to focus on the issues that directly impact Berkeley citizens and vote NO on Resolution 21-12.

I lived in Berkeley for 9 years as an undergraduate and graduate student, and I am shocked and saddened that the City of Berkeley would consider this biased resolution based on inaccurate information and, far outside the charge of this committee.

Sincerely,
Karen Kronick

Focus on rent issues. There's too much ignorance on the L & R turning this country into a farce of absurdities. Where do you get the idea commenting on Israel & the Palestinians is your duty? All you do is threaten the lives & property of American Jews

This behavior by the Rent Stabilization Board is outrageously inappropriate. As the name clearly describes, the duty of this board is to address rental issues, not foreign policy. Focus on your local mission, not anti semetic international affairs.

To the Rent Stabilization Board Members,

What an absolute disgrace you are to your community. Your JOB is to protect renters in the city of Berkeley. It is NOT to spread lies about the state of Israel, the only democracy in the Middle East. Moreover, you are no better than the rot of a president that we just got rid of when you provoke anti-Semitism with your incendiary lies. To all the people of color on the board, shame on you for promoting the same hate that you cry foul about when it is directed at you.

Lie #1: Israel is an apartheid country

Fact #1: Israeli Arabs VOTE

Fact #2: Mizrahi Jews were killed, their businesses were looted and they were expelled from Arab nations between the 1940s and 1970s. Jews were largely stripped of their voting rights and forced to leave all their belongings behind.

Fact #3: Jewish refugees were absorbed and given haven by Israel

Fact #4: Palestinian refugees lost their homes as a result of the 1947-1949 Palestine War. This war started because the Arab nations refused to accept the vote of the UN to divide the territory of Palestine into two sovereign states. Unlike Israel, the Arab nations refused to absorb these refugees; instead keeping them in squalid refugee camps as a propaganda tool.

Fact #5: There are SIX Israeli Arabs in the Knesset as well as several women.

Stop spreading lies and promoting Anti-Semitism.

Holly Trief

According to a recent ADL survey, 77 percent of the American Jews said that they were much more or somewhat more concerned about antisemitism in America since the recent violence in Israel and Gaza. I fear that this resolution will only further inflame the already escalating hate against the Jewish community.

For these reasons, I urge you to focus on the issues that directly impact Berkeley citizens and vote NO on Resolution 21-12.

I strongly agree with the above statement. Not to mention that it is highly anti-Semitic.

Dear Berkeley Rent Stabilization Board,

I urge you to vote NO on Resolution 21-12 (agenda item 4b) during this week's Rent Stabilization Board, scheduled for June 17.

This haphazard resolution about the ongoing Israel-Palestinian conflict is factually inaccurate, lacking in nuance and far outside the mission of the board, which is "to regulate residential rent increases in the City of Berkeley and to protect against unwarranted rent increases and evictions and to provide a fair return to property owners."

The people of Berkeley elected you to support tenant rights and address the ongoing housing crisis, NOT to waste taxpayer money commenting on complex international conflicts.

To my knowledge, the Rent Stabilization Board has never commented on an international conflict. Singling out Israel for false condemnation and using inflammatory language like "apartheid" and "ethnic cleansing" sends the wrong message to our diverse community.

I urge you to vote NO on Resolution 21-12 (agenda item 4b) during the Rent Stabilization Board's June 17 meeting. You are now realizing how much of your time is being wasted by hijacking your meeting on a matter far, far outside its purview. This is not what you were elected to do for the City of Berkeley.

What's even worse, the proponents of this resolution vehemently oppose peace between Palestinians and Israelis. On the contrary, they demand that Palestinians continue the jihad against the very existence of a Jewish state. People who have a real interest in genuine peace will stay as far as possible from this extremism.

Dear Berkeley Rent Stabilization Board,

I urge you to vote NO on Resolution 21-12 (agenda item 4b) during this week's Rent Stabilization Board, scheduled for June 17.

This haphazard resolution about the ongoing Israel-Palestinian conflict is factually inaccurate, lacking in nuance and far outside the mission of the board, which is "to regulate residential rent increases in the City of Berkeley and to protect against unwarranted rent increases and evictions and to provide a fair return to property owners."

The people of Berkeley elected you to support tenant rights and address the ongoing housing crisis, NOT to waste taxpayer money commenting on complex international conflicts.

To my knowledge, the Rent Stabilization Board has never commented on an international conflict. Singling out Israel for false condemnation and using inflammatory language like "apartheid" and "ethnic cleansing" sends the wrong message to our diverse community.

According to a recent ADL survey, 77 percent of the American Jews said that they were much more or somewhat more concerned about antisemitism in America since the recent violence in Israel and Gaza. I fear that this resolution will only further inflame the already escalating hate against the Jewish community.

For these reasons, I urge you to focus on the issues that directly impact Berkeley citizens and vote NO on Resolution 21-12.

Sincerely,

Berkeley Rent Board to Vote on Resolution Accusing Israel of Ethnic Cleansing, by Gabriel Greschler

J Weekly, <gabriel@jweekly.com>. **June 15, 2021**

J. Weekly of Northern California, jweekly.com

Journalist Gabriel Greschler <gabriel@jweekly.com>

<https://www.jweekly.com/2021/06/15/berkeley-rent-board-to-vote-on-resolution-accusing-israel-of-ethnic-cleansing/>

Berkeley's Rent Stabilization Board, an elected body that regulates the residential rental market, will vote Thursday on a resolution that describes Israel's treatment of Palestinians, including the threat of evictions in East Jerusalem, as amounting to "ethnic cleansing" and "apartheid."

The resolution calls the Israeli government's activities in the neighborhood of Sheikh Jarrah "part of a pattern of violence, displacement, and dispossession by Israeli settlers." It also calls for U.S. tax dollars "to no longer fund apartheid in Israel."

The resolution's author is vice chair Soli Alpert, a Jewish member of the rent board's nine-person body since 2018. The largely symbolic resolution is something he felt obligated to write, he told J., because he opposes the Israeli government claiming to "speak for the entirety of the Jewish community" and does not want U.S. taxpayer money to support the "occupation in [the] West Bank, Gaza and East Jerusalem."

Sheikh Jarrah became a focal point of the wider conflict between Israel and Hamas in May that ended in a cease-fire. Critics claim that several Palestinian inhabitants of the neighborhood in eastern Jerusalem are being evicted to make way for right-wing settlers so the area can become more Jewish and less

Arab. Those in favor of the evictions say Jews have historical claims to the area going back to pre-state Israel.

Israel's Supreme Court is set to announce a ruling soon on a set of cases related to evictions in Sheikh Jarrah. In early June, Israel's government decided to not intervene in the cases, which experts say increases the likelihood of the Palestinian evictions.

Three others on the rent board, including chair Leah Simon-Weisberg, co-authored the resolution.

The board is tasked is tasked with regulating rent increases, protecting against "unwarranted" evictions and "providing a fair return to property owners." Alpert said that while the board routinely passes symbolic resolutions, during his tenure there has yet to be one mentioning the Israel-Palestinian conflict. As a city official with "power and privilege," he said, he feels "obligated to use those positions" to speak out about discrimination and injustice he sees.

My name is Iman, I am a Palestinian American and a UC Berkeley Alumnae. I urge you to support this resolution to condemn the illegal expulsions of Palestinians from their homes. Israeli authorities have ordered 1500 Palestinians in Silwan to demolish their homes themselves, or the authorities will do so and bill the residents for the demolition. Under international law Israel doesn't technically have authority over East Jerusalem, and these expulsions are part of a larger effort to establish a Jewish demographic majority in Jerusalem. I am grateful for Berkeley's history of standing for human rights and against apartheid and I urge you to vote to continue this legacy. As U.S. tax payers we must make clear that our taxes must not fund war crimes, violate basic human rights, be used towards the demolition of Palestinian homes or illegal annexation of Palestinian land.

Hello,

I urge you all to vote in favor of the Palestine resolution. My family is originally from Palestine but we were kicked out in 1948. I personally have been victim to the Israeli bombardment, while visiting Lebanon in 2006, and witnessed it first hand. The worst thing is knowing my tax dollars went to military aid to Israel that was used against myself and other innocent civilians.

Thank you for your time

I want to express my full support for Resolution 21-12 condemning the evictions of Palestinians from their homes in East Jerusalem by Jewish settlers, with support from the Israeli state. Please vote YES. There is nothing anti-Semitic in condemning what is effectively ethnic cleansing, a cruel policy the state of Israel has pursued since its beginnings and which will continue unless hampered by strong international condemnation.

While systems of oppression of minorities exist in other countries, to no other country does the United States provide the massive military and diplomatic aid it has consistently given Israel throughout its history. Thus Israel is not being unjustly selected for criticism. Accusations of anti-Semitism on that account are inappropriate.

Let me add that I am a Holocaust survivor and the child of Holocaust victims.

Dear Commissioners of the Berkeley Rent Stabilization Board,

My name is Bryant Srioudom and I am a student at UC Berkeley. On behalf of Cal Berkeley Democrats, I am writing to express my strong support for the proposed Resolution condemning the illegal evictions of Palestinians by the Israeli government. Israel's recent attacks on Sheikh Jarrah of Jerusalem, Al-Aqsa mosque, and other religious sites and residential areas in East Jerusalem and the West Bank have displaced, injured, and murdered Palestinian people, and it is our city's responsibility to oppose them.

The state of Israel's continuous and devastating violence against Palestinians, with the full financial and moral support from the United States government, is indicative of its perpetuation of settler colonialism, ethnic cleansing, and state-sanctioned violence. The United States must acknowledge and unequivocally revoke its political, financial, and international role in Israeli imperialism and injustices. Therefore, the Berkeley Rent Stabilization Board, in solidarity with the oppressed people in Palestine and the Palestinian diaspora, should adopt Resolution 21-12 to condemn the Israeli occupation and US complacency, and support H.R. 2590, The Palestinian Children & Families Act, to ensure that no US tax dollars fund Israeli human rights violations.

In conclusion, I strongly urge you to vote YES on Resolution 21-12 on Thursday, June 17th, 2021 stand in solidarity with Palestinians and fight for Palestinian liberation.

Best,
Bryant Srioudom

Dear Commissioners of the Berkeley Rent Stabilization Board,

My name is Cecilia Lunaparra and I am a student at UC Berkeley and Political Director of Cal Berkeley Democrats. On behalf of Cal Berkeley Democrats, I am writing to express my **strong support for the proposed Resolution condemning the illegal evictions of Palestinians by the Israeli government**. Israel's recent attacks on Sheikh Jarrah of Jerusalem, Al-Aqsa mosque, and other religious sites and residential areas in East Jerusalem and the West Bank have displaced, injured, and murdered Palestinian people, and it is our city's responsibility to oppose them.

I am a student of Mexican descent, with both indigenous and Spanish ancestors. While my indigenous ancestors were unable to escape Spanish colonization, brutality, and murder, I staunchly believe that we can, and should, fight against **current** colonization—or at least, stop our nation's financial and political support of it. Israel is a perpetrator of modern settler colonialism and ethnic cleansing, and our federal and state governments support it unequivocally. This is absolutely unacceptable, and it would be a disservice to my ancestors' fight to ignore it.

The state of Israel's continuous and devastating violence against Palestinians, with the full financial and moral support from the United States government, is indicative of its perpetuation of settler colonialism, ethnic cleansing, and state-sanctioned violence. Dear Leah, Soli and other board members:

Along with many others, I want to register my enthusiastic support for your proposed resolution. I hesitated to write, because I am not a Berkeley resident (though I was in the past). But I have been intensely involved with advocacy for Palestinian human rights and would like to make several important observations regarding the resolution. If there will be amendments considered, it could be strengthened:

1) It refers to the current small number of cases regarding homes in Sheikh Jarrah and also to the much broader "displacement of Palestinians across Palestine." In between are concrete and similar threats to hundreds of additional households in Sheikh Jarrah and in other East Jerusalem neighborhoods, in particular Silwan, where houses have already been demolished and others undermined by digging under them in the name of politically motivated and likely phony "archeology" undertaken by extremist settler organizations with government blessing.

2) In addition, thousands of Palestinian Jerusalem residents have been forced out of the city since it was occupied in 1967 through use of various other means, especially egregious enforcement of laws requiring them to maintain continuous residency, all part of a declared effort to retain a demographic majority of Jews. In sharp contrast, I, an American Jew who lived in Jerusalem for seven years in the 1970s and '80s, was allowed without question to take up residence in the city then and could return today if I wished, even after an absence of 36 years.

3) The resolution refers to "evictions," and I understand the desire to relate the procedures to the Rent Board's area of concern. But they don't comport with the usual meaning of the term -- eviction for failure to pay rent or due to some other clear violation of a rental contract. You do note that discriminatory laws are being used and that what's going on amounts to a campaign of ethnic cleansing, but in light of the above facts, it might be better to use a more accurate term instead of or in addition to "eviction", such as "expulsion," to better make the connection.

In any event, thanks for your work on this.

COMMENT ON CONSENT ITEM: Recommendation to adopt Resolution 21-12 Condemning the Illegal Evictions of Palestinians by the Israeli Government (Vice Chair Alpert, Chair Simon-Weisberg, Commissioner Laverde and Commissioner Walker)

150-Word Limit Comment Right Below:

Dear Board,

We must acknowledge, learn, and address the continuing atrocities, traumatic events, and oppression against Palestinians. The Associated Press recently reported within this week that Israel's supreme court rejected a human rights group's request to declare it unlawful for soldiers to shoot at unarmed civilians. Israeli annexation of Palestinian lands has been considered to be a violation of international law by several countries, but this issue is beyond legality as human lives, families, are being impacted inter-generationally. Palestine has been under foreign military occupation – the military committing crimes such as ethnic cleansing, torture, land theft, and abuse of children. Palestine is not only an international human rights concern but also an ongoing anti-apartheid struggle. Self-determination is a right, not something to be withheld unjustly. These evictions play a role in broader injustices. Vote YES on this resolution.

In Solidarity,

Good evening,

How shameful is it that leaders in the City of Berkeley are skiddish to condemn genocide and the forced removal of people from their homes? As individuals who were elected to protect the vulnerable from being evicted from their homes, and regulate external forces to ensure people have roofs over their heads, it is quite ironic and unfortunate that members of the Berkeley Rent Board are not already behind such a resolution. I urge the Berkeley Rent Board to support a resolution condemning the evictions of Sheikh Jarrah. It's the right thing to do.

Hi John,

I wanted to reach out since we have known each other since our kids were in elementary school!

I realize that Israel-advocacy organizations like the Jewish Community Relations Council of SF have been generating a lot of emails due to an alert they sent out.

I'm writing to ask that you support the majority of Jews in our Berkeley community who are critical of Israel's policies towards Palestinians. Our voice is often drowned out by these Israel-advocacy organizations because they have more money and political connections and can send these alerts. We don't have that ability.

I know from my own experience that there are many, many Jews in Berkeley who are tired of Israel claiming to act in our name when it pursues policies that deny Palestinians their human rights. We oppose the way in which Israel and their advocacy groups try to equate legitimate criticism of Israeli state policies with antisemitism. Criticizing Israel for egregious human rights violations does not increase antisemitism. What increases antisemitism is rising white nationalism in this country; the movement to support Palestinian demands for equality and justice and a right to live peacefully in their homes and on their land is not antisemitic. I say this as a Jewish peace activist who has been working on this issue for the last 7 years.

It has become clear that Israel will not change these policies on its own - pressure must be applied by countries around the world just as it was with South Africa.

Berkeley has a long, proud history of speaking out on international injustices. I hope that you won't let false charges of antisemitism keep you from voting for a resolution which holds Israel accountable for actions that are not defensible.

Thanks for listening!

My name is Heather. I'm a BUSD teacher who is humbled to work in a city with a history steeped in principles of justice and equality. Inspired by this history I connected my students with children living in Gaza. For months, they exchanged letters, photos and videos, learning about each other's talents, passions, dreams, and goals. I'm humbled to have traveled to Gaza to meet the children, bring messages from their friends in Berkeley and be a witness to the life. The warmth, kindness, love and hospitality of Palestinians AND their resilience in facing insurmountable challenges, oppression, and aggression from Israeli occupation was again HUMBLING. Tonight, I bring a message from the children of Gaza. "We live our lives under constant siege, constant bombings from the sky." I urge you to stand in solidarity with the children of Palestine. Pass this resolution so that one day soon they can live and flourish in safety.

Dear Berkeley Rent Stabilization Board members,

I am writing on behalf of the Oakland Tenants Union which endorses the Berkeley Rent Stabilization Board resolution on Palestine (CONDEMNING THE ILLEGAL EVICTIONS OF PALESTINIANS BY THE ISRAELI GOVERNMENT, RESOLUTION 21-12). This resolution is in the interest of human rights for everyone, including the Palestinian people, many of whom Israel has been illegally evicting (actually violently displacing) from their homes and land since 1948 for no reason other than that they are Palestinians. Over the decades, Israel has bulldozed a multitude of Palestinian homes through its illegal occupation of Palestinian land and wreaked havoc and destroyed housing, businesses and infrastructure with its numerous bombing campaigns on Gaza, including the renewed bombing there since Israel's new administration has come to power, leaving death, injuries, rubble, and tens of thousands of Palestinians homeless. All Gazans are trapped with nowhere to flee because of Israel's military control of land crossings and sea and air access.

OTU encourages board members to vote YES on this resolution during agenda item 4.b. at the Thursday, June 17, 2021 Rent Board meeting.

Thank you.

"I am a Berkeley resident who has slept on the streets of Sheik Jarrah with Palestinians forcibly evicted from their homes by Israeli settlers. In the middle of the night, as we slept, drunken Israeli settlers would stroll into our encampment yelling, throwing rocks and starting fights – Israeli Police backed them up with immediate presence. One settler, holding a rock, told me he was from New York. I witnessed every variable involved in this seemingly eternal injustice: discrimination, violence, oppression, violation of human rights, and most importantly apartheid. It is apartheid. Disgustingly, the United States of America supports & funds war crimes of Israeli occupation. Every possible measure must be brought forth to end this racist illegal dispossession. As we are aware of the genocide of indigenous Americans, so it happens to the people of Palestine via ethnic cleansing. Zionism fuels hatred, and must be held accountable. Pass the resolution."

Dear Commissioners of the Berkeley Rent Stabilization Board,

My name is Nathan Mizell and I am a student at UC Berkeley and Chair of the City's Reimagining Public Safety Task Force. I write here inky as a CalDems member. On behalf of Cal Berkeley Democrats, I am writing to express my strong support for the proposed Resolution condemning the illegal evictions of Palestinians by the Israeli government. Israel's recent attacks on Sheikh Jarrah of Jerusalem, Al-Aqsa mosque, and other religious sites and residential areas in East Jerusalem and the West Bank have displaced, injured, and murdered Palestinian people, and it is our city's responsibility to oppose them.

The state of Israel's continuous and devastating violence against Palestinians, with the full financial and moral support from the United States government, is indicative of its perpetuation of settler colonialism, ethnic cleansing, and state-sanctioned violence. The United States must acknowledge and unequivocally revoke its political, financial, and international role in Israeli imperialism and injustices. Therefore, the Berkeley Rent Stabilization Board, in solidarity with the oppressed people in Palestine and the Palestinian diaspora, should adopt Resolution 21-12 to condemn the Israeli occupation and US complacency, and support H.R. 2590, The Palestinian Children & Families Act, to ensure that no US tax dollars fund Israeli human rights violations.

In conclusion, I strongly urge you to vote YES on Resolution 21-12 on Thursday, June 17th, 2021 stand in solidarity with Palestinians and fight for Palestinian liberation.

Respectfully,
Nathan Mizell

Good afternoon,

I am emailing the rent board as a resident of West Berkeley and active member of the community. I see on tonight's agenda that you will be discussing whether or not to adopt resolution 21-12 regarding the illegal evictions in occupied Palestine.

I wanted to share my support of this resolution. I have met community members from Wadi Foquin in the occupied West Bank, Palestine, and heard their stories of struggle under Israeli occupation. It is heartbreaking to hear about the heightened attacks and evictions of Palestinians from their homes. I strongly urge the board to condemn the evictions and call for an end to US support of Israeli apartheid. We in Berkeley are battling our own issues of Gentrification and should make the connections to what is happening in Palestine. People should have the basic right of housing!

Please do not give into the pressure of Israeli lobbying. This is about Human Rights!

Thank you,

Dear Commissioners of the Berkeley Rent Stabilization Board,

My name is Omar Kayal and I am a student at UC Berkeley. On behalf of Cal Berkeley Democrats, I am writing to express my strong support for the proposed Resolution condemning the illegal evictions of Palestinians by the Israeli government. Israel's recent attacks on Sheikh Jarrah of Jerusalem, Al-Aqsa mosque, and other religious sites and residential areas in East Jerusalem and the West Bank have displaced, injured, and murdered Palestinian people, and it is our city's responsibility to oppose them.

Growing up in Saudi Arabia, I had many Palestinian friends who can't go back to live in their country. What Israel and its allies are doing to the Palestinian people will be shamed someday in our history books. Nobody is saying that Israel does not have the right to exist or that Hamas should not be condemned. We are simply asking you to recognize the right for the Palestinian people to exist without terrorizing, massacring, and displacing them, let alone the constant harassment, lack of clean water and basic infrastructure, and excessive discrimination that they experience.

The state of Israel's continuous and devastating violence against Palestinians, with the full financial and moral support from the United States government, is indicative of its perpetuation of settler colonialism, ethnic cleansing, and state-sanctioned violence. Hello,

I hope this finds you well. I'm reaching out in support of resolution 21-12. It is vital that we recognize that what is happening is forced displacement and a very clear form of ethnic cleansing, as it has been exclusively targeting Palestinians. The continued violation of human rights perpetrated by the Israeli government has been recognized by numerous reputable human rights groups and NGOs, and can no longer be ignored by the rest of the international community. Supporting this resolution makes it clear the Rent Stabilization Board is a proponent of true stabilization, equity and human rights. Thank you for your time.

[Re Resolution 21-12, currently item 4.b. on Consent calendar, but may be moved to Action]

As a Berkeley resident and a descendant of Eastern European Jews murdered by the Nazis and a few who escaped to Israel or the U.S., I urge the Rent Board to adopt Resolution 21-12 Condemning the Illegal Evictions of Palestinians by the Israeli Government. There never will be peace or justice in that region until those who believe strongly in human rights for all, step up to oppose oppressive treatment of Palestinians by the Israeli authorities. The evictions are a travesty and a tragedy and must be called out by the world community.

Yours truly,

Honorable Members of the Rent Stabilization Board.

Recommendation:

That the Berkeley Rent Stabilization Board adopt the attached resolution condemning the illegal evictions of Palestinians by the Israeli Government.

Background:

Ongoing efforts by Israeli settlers to evict Palestinian residents of the East Jerusalem neighborhood of Sheikh Jarrah have sparked violence throughout Israel and Palestine. These evictions are a part of a pattern of violence, displacement, and dispossession by Israeli settlers and the Israeli government against Palestinians which amount to ethnic cleansing and apartheid.

The attached resolution condemns these actions and call for American tax dollars to no longer fund apartheid in Israel.

Financial Impact: none.

Honorable Members of the Rent Stabilization Board,

I am Yassar Dahbour, Chair of the Arab American Caucus of the California Democratic Party, writing to urge for your support for "Resolution Condemning the Illegal Evictions of Palestinians By the Israeli Government". While Palestinians have not recovered from the latest savage Israeli assault, the Israeli government proceeds with its policies of ethnic cleansing of Palestinians. While the events of Sheikh Jarrah were luckily publicized by young Palestinian men and women on social media, these oppressive measures are not isolated events and have been taking place for the past 73 years mostly undetected by international media. Therefore, your support for this resolution will bring more lights to the plight of the Palestinians who have been dying to be heard!

To the Rent Board and Vice Chair Soli Alpert,

I commend the authors of resolution 21-12, "Condemning the Illegal Evictions of Palestinians by the Israeli Government," and implore every member of the rent board to support it. I'm a member of the East Bay Democratic Socialists of America, and as a Jewish socialist I'm proud that DSA is an organization that supports the rights of Palestinians. As the resolution clearly lays out, the Israeli government's treatment of the Palestinian people constitutes apartheid, and must be opposed by justice-loving people everywhere.

I was constantly bombarded with Zionist, pro-Israel propaganda growing up- in my synagogue and in the news. The US and Israeli governments both spend a great deal of time and effort trying to convince Americans and American Jews that Palestinians are the oppressor rather than the oppressed, and to paper over the ongoing displacement of and violence perpetrated by the State of Israel against Palestinians since 1948.

As a result of that propaganda and misinformation, I am sure the supporters of this resolution on the rent board have been getting relentless pressure to withdraw the resolution, and those who haven't announced a position are surely being hounded by people around the country and across the world to oppose it. The new Bennet cabinet has wasted no times in continuing the apartheid crimes of the Netanyahu government, reminding us that these crimes go deeper than any single politician or administration, and must be unequivocally denounced.

I implore you all to stand strong, to believe the evidence before your eyes, and to condemn the actions of the Israeli government by supporting this resolution. The Palestinian people deserve freedom and self-determination, and Jewish people around the world deserve so much more than a hollow, apartheid state with rights for Jews and brutal oppression for Palestinians. It will take action across the world to make that a reality. Please vote yes on this resolution!

I salute the rent board members who authored it for their moral standing with human rights for Palestinians. As a Berkeley resident for the last 40 years, I hope my rent board will speak for me in condemning illegal expulsion of Palestinians in Sheikh Jarrah, East Jerusalem by Israel. To the members of the Berkeley Rent Board:

As a Jewish American, I am strongly in support of 21-12. It is consistent with the mission of the Rent Board to protect renters in Berkeley from unjust eviction among other responsibilities.

In Sheikh Jarrah, Silwan, and throughout the West Bank, the Israeli government is evicting Palestinians from their homes. Many of which are owned by the families, some of which have owned the homes for several generations. The homes are being given to Israeli settlers who are a part of a campaign of ethnic cleansing. Sometimes the government orders Palestinian home owners to demolish their own houses. If they don't by a certain date, they are told if they don't than it will be demolished by the Israeli soldiers and the owner will be charged for the demolition.

This is all being done with the support and military aid given to Israel.

I am against these practices and more.

These actions are NOT being done in my name.

These actions do not make Israeli Jews or Jews around the world safer.

Hello

My name is Dina Ezzeddine
I live on 821 Indian rock Ave
Berkeley 94707

I think the support from our rent board to the Palestinian people in Sheikh Jarrar is an honourable step in the history of liberal Berkeley. If criticism of Israel is anti-Semitic then criticism of Saudi Arabia is Islamophobia, which is not. Countries are not people as much as corporations are not people. Thank you for standing for the indigenous Dina

Greetings to you all,

Your efforts in support for Palestine, will never go unnoticed. Thank you for standing with the people, you are 100% right in the fact that the more the IDF and the illegal settlers keep on doing the unlawful actions in Sheikh Jarrah and all over Palestine as they have been doing since 1948! That will only lead to more violence in the whole world and it would end up with more bloodshed! All the way from Daly City & Berkeley To Palestine! To China! We as people are all behind such kind acts. We are all behind you.

The "Israeli Government" once again has shown the world that it's an apartheid and occupation. And at this point I don't know who could be the judge or the Attorney to their crimes. They are illegal and they commit war crimes but who's to question their authority. We The People! They can keep attempting to control the whole world, however I personally believe in a higher being One whom created the universe!

And What's so known as Karma in the west, I hope the fires they started, catch on to them!

From the Palestinian/Jordanian river to the Mediterranean Sea! Palestine will be freed!

From the Zionist and their I'll will towards the indigenous people of the Land!

Thank you,

me and my people are all behind you!

And I hope one day we can have food together in a free Palestine for the Palestinians.

We are behind your committee, and we need you to keep the good work and maybe one day even take office in Daly City, Ca. As your second/first Base!

Stay positive and keep the hate/objections away from your sight as we already deal with so much hate! We are for truth!

To whom it may concern,

I am an Oakland resident (with family & friends in Berkeley), writing in favor of the Resolution Condemning the Illegal Evictions of Palestinians By the Israeli Government.

As a Jew, and the daughter of two Rabbis, as well as a long-time East Bay resident, I'm hoping you'll do the right thing and vote in favor of this resolution. Our tax dollars currently help fund a 3.8 billion dollar blank check to Israel, which goes to support countless forms of violence against the Palestinian people: home demolitions, forced displacement, imprisonment of children, killings of civilians, mass arrests, and so much more.

I am proud of Berkeley's ongoing commitment to social justice, and hope you'll honor that commitment by voting yes on this resolution. We need all of us in this work to support Palestinians as they organize for their liberation.

And as a Jew, I feel my community's heart & soul requires us to choose the right side, so that in the end, both Palestinians and Israelis can live in freedom & dignity.

Thank you,

As someone who was born Jewish and educated in a Conservative shnagogue, who has been visiting Israel since 1961, but who has also spent a total of nine months volunteering in various capacities in the West Bank and Gaza in recent years, I am writing to urge you to vote YES on Resolution 21-12 (agenda item 4b) during the Rent Stabilization Board meeting this week.

I have personally witnessed the brutality of the Israeli occupation. It is indisputably apartheid - not that it is identical to South Africa, but in the simple, clear sense defined in international law (and recently explained by Human Rights Watch): it is a regime that subjects different ethnic groups to different systems of law, privileging all Jews while discriminating against Palestinian citizens within Israel's pre-1967 boundaries, imposing harsh military occupation and continuing ethnic cleansing on East Jerusalem and the West Bank, and subjecting my friends in Gaza to a brutal blockade and repeated assaults by a US-funded high-tech military machine.

Criticizing actions like the planned evictions of Palestinian families from their homes in Sheikh Jarrah is not anti-semitism - it is simply standing up for justice and decency. I hope you will have the courage and integrity to pass this resolution.

Thanks.

Hello,

I am writing as a Jewish Berkeley resident to urge you to support the resolution condemning illegal evictions in East Jerusalem and to not to bend to pressure from those that falsely assert that criticism of Israel's widely recognized violations of human rights and international law is antisemitic. On the contrary, opposing Israeli apartheid and occupation is an affirmation of humanity. Because I am Jewish, I feel a responsibility to speak out against injustice, especially when it is carried out in my name. Similarly, I believe your board, with its commitment to housing justice, has a responsibility to speak out against evictions that facilitate illegal settlement expansion and that are an impediment to the pursuit of peace in the region. I hope my Rent Board will speak for me in condemning the evictions in Sheikh Jarrah.

Thank you!

As a Jewish resident of Berkeley, I urge you to vote YES on Resolution 21-12 (agenda item 4b), condemning Israel's policies of evicting Palestinian residents of Sheikh Jarrah from their homes in order to "judeaize" East Jerusalem, as well as condemning Israel's other crimes against the Palestinian people.

Our elected officials should also be made aware of the moral and fiscal costs of remaining silent on this issue. Each year, more than 3.8 billion dollars of US tax money is given over to Israel's military in order to perpetuate its apartheid regime. That translates into a drain of well over \$12 million from District 13's annual revenues. See <https://uscpr.org/militaryfunding>. Congressional Representative Barbara Lee should sign on to HB 2590 and take other steps to ensure that our tax dollars are allocated to creating affordable housing in our communities, rather than to destroying Palestinian communities in Israel-Palestine.

Sincerely,
Carol Sanders

It has come to my attention that the Jewish Community Relations Council of San Francisco (JCRC) has issued an action alert to its members, designed to pressure the Berkeley Rent Board into voting no on Resolution 21-12. As a long-time Berkeley resident and Jewish American peace activist, I urge you not to give into this pressure and to continue a proud Berkeley tradition of supporting struggles for freedom and human rights outside of Berkeley.

Criticism of Israel's violations of human rights and international law is not anti-Semitic. On the contrary, it is anti-colonialist and pro-democracy. Both Human Rights Watch and the leading Israeli human rights organization, Bet Tselem, have published reports documenting that Israel is an apartheid state with policies designed to dispossess Palestinians of their homes and land.

Because I am Jewish, I feel a special responsibility to speak out against injustice, especially when it is carried out in my name, however all of us have that responsibility. Similarly, I believe your board, with its commitment to housing justice in Berkeley, has a responsibility to speak out against housing injustice in Israel/Palestine - these Jerusalem area evictions that facilitate illegal settlement expansion and that are an impediment to the pursuit of peace in the region.

The City of Berkeley has a long and proud history of its commissions passing resolutions to support human rights and freedom struggles. I hope my Rent Board will speak for me in condemning the evictions in Sheikh Jarrah.

Dear Rent Board Members,

I'm writing to urge you to support the Resolution (attached) on the Eviction of Palestinians from their Homes.

Although Jerusalem is on the other side of the world, the issue of forcible eviction is very close to Berkeley. Moreover, whether we like it or not, what happens in Israel/Palestine is very much an issue in the politics of the United States.

So, once again, let's make Berkeley's voice heard on a burning issue of international importance.

I am very excited to see the proposed resolution 21-12, condemning illegal evictions of Palestinians by the Israeli government, which will be discussed in this week's Berkeley Rent Stabilization Board meeting.

This resolution is inseparably linked with the work and mission of Berkeley Rent Board, and recognizes that housing is a human right, and displacement, eviction, violence and discrimination causes irreparable harms that we must fight against, both here in the Bay Area, and across borders. We recognize that Berkeley welcomes people who have connections and history all over the world, and that likewise the actions and expenditures of the US Government have a far reaching impact around the world, and given that, our commitment here in the Bay Area to justice is essential for justice everywhere.

I will add in conclusion, as a Jewish person, I feel a special obligation to actively oppose the violence being inflicted against Palestinians, disingenuously in the name of my culture, and I actively oppose that weaponization of my identity. As a Jew and as a human being, I oppose the evictions of Palestinians, and trust every member of the Rent Stabilization Board will join me to oppose the Israeli evictions of Palestinians - and to work for housing justice here and everywhere, by voting to support Resolution 21-12.
