My Redistricting Plan by Stephen Young (11/01/2021)

First Name: Stephen

Last Name: Young

Comments: This proposal unites all of hilly North Berkeley in district 5, keeps 1 and 2 more or less the same, with the principal division being University Avenue, and 7 more compact while keeping its community of interest. District 5 is partially reconfigured to capture the Northside renting community of interest. There are consequent modifications to 3 and 4 for population equality. Otherwise, the plan complies with contiguity and precinct assignment requirements.

CITY OF BERKELEY

My Redistricting Plan by Phil Allen (11/04/2021)

A RATIONALE FOR MY REDISTRICTING PROPOSAL

Phil Allen – resident of District 1

This explanation is meant to accompany my map for the next generation of City of Berkeley council districts.

FUNDAMENTAL

- The number of districts will remain at 8, for continuity and reasonable representation ..
- Districts are re-numbered to agree with the north/south street-address scheme in Alameda County. Hence, D-1 will be northmost and D-8 southmost
- Illegal codicil: Considering the southward ‘drop’ of the west-most census block in my *new* D-6 (into Aquatic Park), why not transfer it to the *new* D-8, as no-one lives there anyway?
- All districts fall within mandated population parameters

CONCEPTUAL

My proposal has two bases:

1 – It relates the City’s three prominent geographic features to all surmounted physical settlement: the hills esplanade; the mostly-culverted creeks, and the Bay frontage. New districts will therefore have a generally east/west orientation. *Five* districts will include the Eastern elevations. *Four* will have Bay or aquatic frontage. *Three* will have both. This orientation encourages consideration of those culverted creeks;

2 – The current order of fairly box-like districts arose from a demand for enfranchisement by the purposely omitted, resulting over the decades in a parochial ‘our plot’ view throughout the City—here are the struggling, here are the swells, here’s where to build, etc.

Beyond the first aspect noted above, an east/west orientation will in most new districts embrace a range of incomes, uses, services and recreation. ‘Exclusivity’ will have few places to run. Imagine a councilor/constituents meeting in a district that stretches across the town! Such re-, or new, acquaintance could be evolutionary. Or devastating.

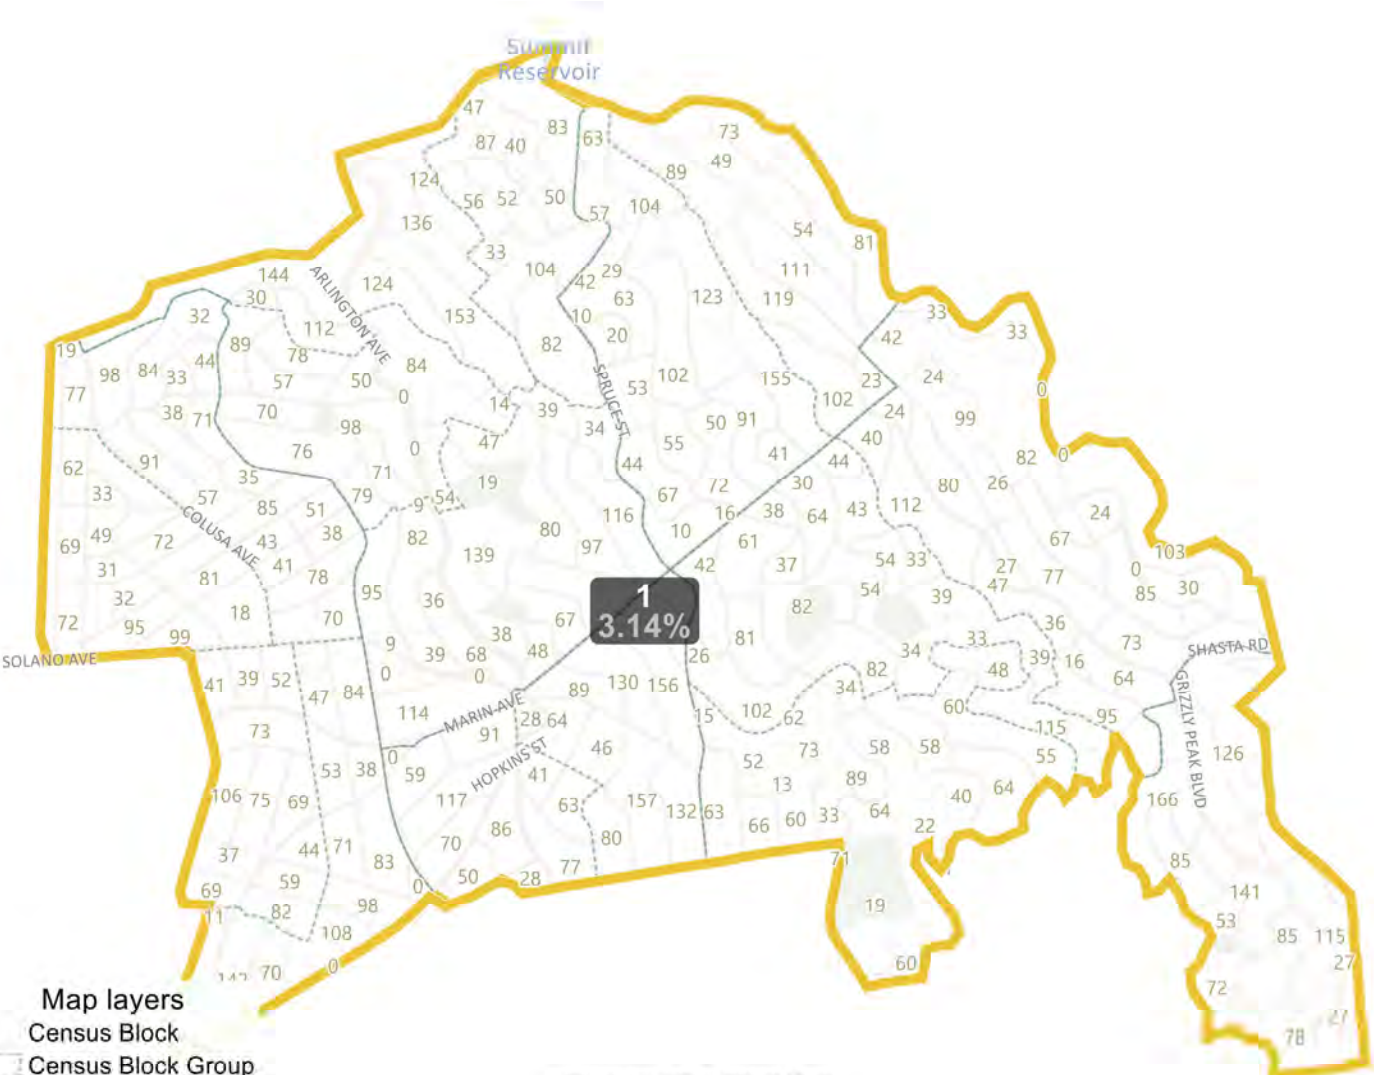

NB

- Ignoring the political consequences of any scheme is like telling a jury, “Disregard the last statement.”
- The 300-person census block fronting the Bay could be appended to either the *new* D-2 or the *new* D-6

My Redistricting Plan by Bruce Stangeland (11/06/2021)

First Name: Bruce

Last Name: Stangeland

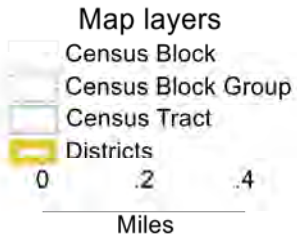

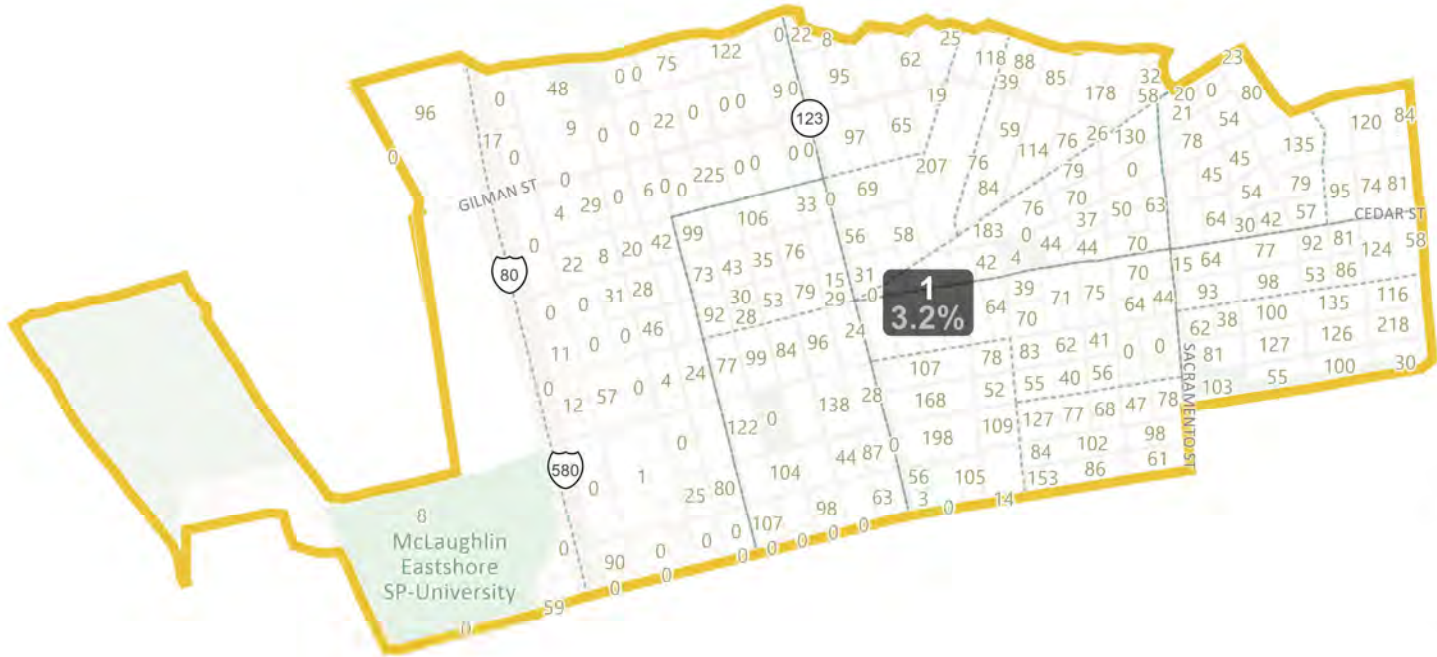

Comments: Here's my attempt to redraw our 8 districts. My maximum population = 16000 and my minimum is 15,200. My intent was to minimize the length of the boundary of each district, so as to not gerrymander.

Date: November 6, 2021
