I. SUMMARY

The Berkeley City Council recognizes the Berkeley community, along with many cities in the Bay Area, is facing an unprecedented housing crisis, and new and improved strategies and tools are needed to address market pressures, prevent displacement of the City’s residents, and welcome future residents. The City of Berkeley (“City”) is seeking to improve local housing opportunities through its affordable housing requirements. These requirements are executed via two (2) programs: inclusionary housing requirements for new development and affordable housing requirements for condominium conversions.

The City of Berkeley adopted revised inclusionary housing regulations (Berkeley Municipal Code Chapter 23.328) for new residential housing construction on February 28, 2023. The revised ordinance will become effective on April 1, 2023. The revisions to the City’s affordable housing regulations were supported by an economic feasibility study. The revisions include transitioning the City’s affordable housing requirements from an affordable housing mitigation fee to an inclusionary housing requirement with an option to pay a fee in-lieu of the onsite provision of affordable housing. All in-lieu fees are deposited into the City’s Housing Trust Fund. The staff report, analysis, ordinance, and resolution are included in Attachment J.

Note: The current Berkeley Municipal Code (BMC) Chapter 23.328 listed on the City’s website reflects the previous iteration of the ordinance. Reference Attachment J for the revised ordinance and other information relevant to this Request for Proposals.

The City of Berkeley’s condominium conversion regulations ([BMC Chapter 21.28](#)) require an affordable housing mitigation fee to mitigate the impact of removing rental housing from the local market. The City is seeking updated analysis to consider changes to the program’s affordable housing requirements.

The City is seeking a qualified firm or individual (“Consultant”) to conduct an updated economic feasibility analysis for the inclusionary requirements for new residential construction, including analysis of impacts to projects of various sizes and types, and equity considerations for owner-occupied properties. This feasibility analysis should be framed within the context of the Berkeley housing market’s variety of project types and sizes. Separate analysis needs to be conducted to examine affordable housing requirements for the City’s condominium conversion ordinance.

As the City begins the implementation of new inclusionary requirements, it is seeking additional analysis to better understand how the inclusionary housing requirements will impact the feasibility of new residential development. This will be concurrently considered with how the requirements can maximize the affordable housing outcomes for the Berkeley community. The intention is to obtain balanced analysis that can inform policy makers in light of evolving market conditions. The study must meet the specified criteria in the State’s guidance on [AB1505](#) and other best practices.

II. SCOPE OF SERVICES

The Scope of Work shall include, but is not limited to, the tasks and activities outlined below. Applicants are encouraged to demonstrate how they will meet these requirements in addition to providing supplemental analysis that enhances project outcomes.

Task 1. Project Management

Project Management shall include:

- a) Managing and supervising the Consultant team, including monitoring the project budget.
- b) Developing a detailed schedule with interim milestones leading up to formal adoption.
- c) Coordinating, contacting and consulting with City staff. Periodic meetings with City staff should be scheduled in order to discuss tasks, issues, concerns, and progress updates about the completion of the work program with City staff. Meetings will be held to review and prepare work products for City Council and public review.

Task 2. Project Initiation

The Consultant team will attend a meeting with City staff to further define roles, responsibilities, and paths of communication; to review and receive available project information; and refine the work program.

Task 3. Economic Feasibility Analysis for Inclusionary Housing

The selected applicant will be expected to review and apply the City's recently adopted inclusionary housing regulations to a comprehensive analysis of development and financing scenarios. The analysis should include but is not limited to subsections a, b, and c identified below. Attachment J contains the applicable requirements adopted by the Berkeley City Council.

a) *Development Prototypes*

The Consultant will review the types of residential and mixed-use projects that would be subject to the inclusionary housing ordinance. The Consultant will analyze a minimum of six (6) development prototypes. The prototypes should:

- a. Reflect a variety of densities, including "missing middle" housing;
- b. Vary based on assumptions regarding building type, density, unit size, etc.;
- c. Consider the use of a Density Bonus; and
- d. Differentiate between rental and ownership financial models.

Applicants are expected to identify prototype categories and provide accompanying analysis to make informed decisions for Berkeley's variety of residential development. The prototypes will be shared and discussed with City staff to arrive at a final set of assumptions for the pro forma analyses in Task 3.b. City staff will coordinate with the Consultant to ensure the prototypes represent the ownership and rental residential development types likely to occur.

b) *Pro Forma Analysis*

The Consultant will develop a pro forma model to test the financial feasibility of each prototype in Task 3.a. The analysis will examine the feasibility of the inclusionary requirement with units built on-site and with the payment of in-lieu fees, account for differences in ownership and rental models, and demonstrate how feasibility fluctuates with the varied in-lieu fee options.

The financial feasibility analysis of projects will be measured using a static pro forma model that will solve for the project's rate of return (yield on cost) or the residual land value as they relate to rental and ownership housing. Key inputs into the pro forma model are the revenues (rents/sales prices), development costs, and land costs. These values can vary substantially by prototype. To reflect these variations, the Consultant will collect and summarize data on land prices, residential market values, and construction costs in the City of Berkeley and Alameda County, using a combination of real estate industry publications and interviews with local developers and brokers. The Consultant will rely on City staff's assistance to collect up-to-date information on total impact fees, permit fees, and other City requirements applicable to each prototype.

c) *Fee Calculations*

The Consultant shall perform research and analysis and provide a written report detailing the recommended in-lieu fees for residential and mixed-use development (residential and commercial) in the City of Berkeley. Analysis shall include a study of the Berkeley housing market. The report will provide per square foot in-lieu fee options for consideration as detailed below. The analysis shall include a maximum fee level for project feasibility and two additional fee options that demonstrate variations between:

- a. project feasibility;
- b. the provision of on-site affordable units; and
- c. the cost of constructing and subsidizing an affordable unit in Berkeley (i.e., does the value of the in-lieu fee reflect the City's typical contribution to the cost to construct an affordable unit via the City's Housing Trust Fund program).

The report shall also include recommendations for periodically adjusting fees to account for changes in construction cost and typical returns on investment as project values and rents change.

Fee calculations should be evaluated against the identified prototypes and pro forma analyses.

Task 4. Economic Feasibility Analysis for Condominium Conversions

The current mitigation fee is based on the relative cost of the ownership and rental for the proposed conversion of each unit. The Consultant should examine the current structure and conduct a feasibility analysis to demonstrate appropriate affordable housing requirements to compensate for the loss of rental opportunities.

Task 5. Draft Report

The research/analysis, assumptions, and results of Task 3 and Task 4 shall be written up in a draft report to be reviewed by City staff. The draft report should explore the advantages and disadvantages for each of the proposed in-lieu fees. To complete this portion of the study, the Consultant will compile information from research, policy analysis, and other sources to identify potential opportunities or benefits, and potential risks or costs to the City.

The report will estimate the number of on-site affordable units at different income levels that could be expected to be produced under the inclusionary program compared to the payment of in-lieu fees. The report will also identify any considerations related to owner-occupied properties. The draft report will incorporate staff comments and be presented to Council.

Task 6. Public Meetings

The Consultant will prepare presentations and attend up to four (4) public meetings with the City Council, Housing Advisory Commission, and Planning Commission to discuss the economic feasibility analysis.

Task 7. Final Report

The Consultant will submit a final report that incorporates Council and commission feedback for final adoption. The Consultant will incorporate comments from the California Department of Housing and Community Development, as applicable.

III. SUBMISSION REQUIREMENTS

All proposals shall include the following information, organized as separate sections of the proposal. The proposal should be concise and to the point.

1. Contractor Identification

Provide the name of the firm, the firm's principal place of business (see section VII, F. – Local Vendor Preference), the name and telephone number of the contact person and company tax identification number.

2. Client References

Provide a minimum of three (3) client references. References should be California cities or other large public sector entities. Provide the designated person's name, title, organization, address, telephone number, and the project(s) that were completed under that client's direction.

3. Executive Summary

Provide an executive summary that includes the Consultant's qualifications related to the preparation of the Scope of Work in Section II of this RFP. In addition, include information on the key personnel to be assigned to the project, their experience, and roles as it relates to this project. Similar information on any sub-consultants shall be provided. There can be no change of key personnel once the proposal is submitted, without prior approval of the City. Include examples of similar projects completed for comparable jurisdictions.

4. Scope of Work and Work Plan

Detail your understanding of the project and provide a description of how the Consultant will approach the scope of work described herein. For example, a preliminary description of the development prototypes the City of Berkeley should consider analyzing; the process for developing and iterating the inputs for the proforma analyses; a description of the proposed work products and how they will inform future policy-making efforts; and/or other aspects of your anticipated approach including uncertainties and possible additional scope items.

5. Schedule/Timeline

Prepare a time schedule detailing the Consultant's proposed time frame for completing the scope of work including key milestones (e.g., anticipated community workshop dates and potential public hearing dates as well as other milestones regarding document preparation), and all City review and submittal requirements and deliverables. The City Council identified this project as a top priority. Special consideration will be given to Applicants that can demonstrate the ability to deliver the work product in an expedited manner.

6. Price Proposal/Fee Schedule

The proposal shall include pricing for all services. The Proposal shall itemize all services (including the Tasks and Activities identified in the Scope of Work), including an hourly rate structure for each member of the Consultant team, and rate structure for additional meetings that require Consultant's facilitation and/or attendance, and all other charges related to completion of the work. Evaluation of price proposals are subject to the local vendor business preference (see section VII.F.).

7. Contract Terminations

If your organization has had a contract terminated in the last five (5) years, describe such incident. Termination for default is defined as notice to stop performance due to the vendor's non-performance or poor performance and the issue of performance was either (a) not litigated due to inaction on the part of the vendor, or (b) litigated and such litigation determined that the vendor was in default.

Submit full details of the terms for default including the other party's name, address, and phone number. Present the vendor's position on the matter. The City will evaluate the facts and may, at its sole discretion, reject the proposal on the grounds of the past experience.

If the firm has not experienced any such termination for default or early termination in the past five (5) years, so indicate.

IV. SELECTION CRITERIA

VI. CITY REQUIREMENTS

(Do not modify any part of this section except: Living Wage would not apply if commodities are being purchased and Equal Benefits would not apply if the contract amount will be less than \$25,000. If this is the case, do not delete the section just note next to it “Does Not Apply to this Request for Proposal”)

A. Non-Discrimination Requirements

Ordinance No. 5876-N.S. codified in B.M.C. Chapter 13.26 states that, for contracts worth more than \$3,000 bids for supplies or bids or proposals for services shall include a completed Workforce Composition Form. Businesses with fewer than five employees are exempt from submitting this form. (See B.M.C. 13.26.030)

Under B.M.C. section 13.26.060, the City may require any bidder or vendor it believes may have discriminated to submit a Non-Discrimination Program. The Contract Compliance Officer will make this determination. This applies to all contracts and all consultants (contractors). Berkeley Municipal Code section 13.26.070 requires that all contracts with the City contain a non-discrimination clause, in which the contractor agrees not to discriminate and allows the City access to records necessary to monitor compliance. This section also applies to all contracts and all consultants.

Bidders must submit the attached Non-Discrimination Disclosure Form with their proposal.

B. Nuclear Free Berkeley Disclosure Form

Berkeley Municipal Code section 12.90.070 prohibits the City from granting contracts to companies that knowingly engage in work for nuclear weapons. This contracting prohibition may be waived if the City Council determines that no reasonable alternative exists to doing business with a company that engages in nuclear weapons work. If your company engages in work for nuclear weapons, explain on the Disclosure Form the nature of such work.

Bidders must submit the attached Nuclear Free Disclosure Form with their proposal.

C. Oppressive States

The City of Berkeley prohibits granting of contracts to firms that knowingly provide personal services to specified Countries. This contracting prohibition may be waived if the City Council determines that no reasonable alternative exists to doing business with a company that is covered by City Council Resolution Nos. 59,853-N.S., 60,382-N.S., and 70,606-N.S. If your company or any subsidiary is covered, explain on the Disclosure Form the nature of such work.

Bidders must submit the attached Oppressive States Disclosure Form with their proposal.

D. Sanctuary City Contracting Ordinance

Chapter 13.105 of the Berkeley Municipal Code prohibits the City from granting and or retaining contracts with any person or entity that provides Data Broker or Extreme Vetting services to the U.S. Immigration and Customs Enforcement Division of the United States Department of Homeland Security (“ICE”).

Bidders must submit the attached Sanctuary City Compliance Statement with their proposal.

E. Conflict of Interest

In the sole judgment of the City, any and all proposals are subject to disqualification on the basis of a conflict of interest. The City may not contract with a vendor if the vendor or an employee, officer or director of the proposer's firm, or any immediate family member of the preceding, has served as an elected official, employee, board or commission member of the City who influences the making of the contract or has a direct or indirect interest in the contract.

Furthermore, the City may not contract with any vendor whose income, investment, or real property interest may be affected by the contract. The City, at its sole option, may disqualify any proposal on the basis of such a conflict of interest.

Please identify any person associated with the firm that has a potential conflict of interest.

F. Berkeley Living Wage Ordinance

Chapter 13.27 of the Berkeley Municipal Code requires that contractors offer all eligible employees with City mandated minimum compensation during the term of any contract that may be awarded by the City. If the Contractor is not currently subject to the Living Wage Ordinance, cumulative contracts with the City within a one-year period may subject Contractor to the requirements under B.M.C. Chapter 13.27. A certification of compliance with this ordinance will be required upon execution of a contract. The current Living Wage rate can be found here: [Information for Vendors | City of Berkeley \(berkeleyca.gov\)](https://www.berkeleyca.gov/Information-for-Vendors). The Living Wage rate is adjusted automatically effective June 30th of each year commensurate with the corresponding increase in the Consumer Price Index published in April of each year. If the Living Wage rate is adjusted during the term of your agreement, you must pay the new adjusted rate to all eligible employees, regardless of what the rate was when the contract was executed.

G. Berkeley Equal Benefits Ordinance

Chapter 13.29 of the Berkeley Municipal Code requires that contractors offer domestic partners the same access to benefits that are available to spouses. A certification of compliance with this ordinance will be required upon execution of a contract.

H. Statement of Economic Interest

The City's Conflict of Interest Code designates "consultants" as a category of persons who must complete Form 700, Statement of Economic Interest, at the beginning of the contract period and again at the termination of the contract. The selected contractor will be required to complete the Form 700 before work may begin.

VII. OTHER REQUIREMENTS

A. Insurance

The selected contractor will be required to maintain general liability insurance in the minimum amount of \$2,000,000, automobile liability insurance in the minimum amount of \$1,000,000 and a professional liability insurance policy in the amount of \$2,000,000 to cover any claims arising out of the performance of the contract. The general liability and automobile insurance must name the City, its officers, agents, volunteers and employees as additional insured.

Insurance not Necessary - If the services are such that the risk of exposure to liability is very low, insurance may not be required. An example of such a service is an individual using his/her computer at home to lay out a newsletter for the City.

***** This determination must be made by the Risk Manager in writing before the RFP is issued. *****

Insurance Waiver A situation in which insurance is not necessary is different from a case in which insurance may be waived. An insurance waiver is appropriate where insurance would usually be necessary but when, as a policy matter, the City is willing to take the risk of allowing an uninsured or under-insured individual or business to perform the work (usually when the risk of liability is low). An insurance waiver may be granted only by the Risk Manager in writing with the approval of the City Manager. If a potential bidder expresses an inability to meet the insurance requirement, he or she should be encouraged to contact the Project Manager & Risk Manager for assistance in obtaining insurance.)

B. Worker's Compensation Insurance

A selected contractor who employs any person shall maintain workers' compensation insurance in accordance with state requirements. Sole proprietors with no employees are not required to carry Worker's Compensation Insurance.

C. Business License

Virtually every contractor that does business with the City must obtain a City business license as mandated by B.M.C. Ch. 9.04. The business license requirement applies whether or not the contractor has an office within the City limits. However, a "casual" or "isolated" business transaction (B.M.C. section 9.04.010) does not subject the contractor to the license tax. Warehousing businesses and charitable organizations are the only entities specifically exempted in the code from the license requirement (see B.M.C. sections, 9.04.295 and 9.04.300). Non-profit organizations are granted partial exemptions (see B.M.C. section 9.04.305). Persons who, by reason of physical infirmity, unavoidable misfortune, or unavoidable poverty, may be granted an exemption of one annual free license at the discretion of the Director of Finance. (See B.M.C. sections 9.04.290).

Vendor must apply for a City business license and show proof of application to Purchasing Manager within seven days of being selected as intended contractor.

The Customer Service Division of the Finance Department located at 1947 Center Street, Berkeley, CA 94704, issues business licenses. Contractors should contact this division for questions and/or information on obtaining a City business license, in person, or by calling 510-981-7200.

D. Recycled Paper

Any printed reports for the City required during the performance of the work shall be on 100% recycled paper, and shall be *printed on both sides of the page* whenever practical.

E. State Prevailing Wage

Certain labor categories under this project may be subject to prevailing wages as identified in the State of California Labor Code commencing in Section 1770 et seq. These labor categories, when employed for any "work performed during the design and preconstruction phases of construction including, but not limited to, inspection and land surveying work," constitute a "Public Work" within the definition of Section 1720(a)(1) of the California Labor Code requiring payment of prevailing wages.

Wage information is available through the California Division of Industrial Relations web site at:
http://www.dir.ca.gov/OPRL/statistics_and_databases.html

F. Local Vendor Preference

City of Berkeley applies a local vendor preference for comparing pricing submittals in RFP responses (City Council Resolution No. 69,890-N.S.)

A **local business** is defined as "a business firm with fixed offices or distribution points located within the City of Berkeley boundaries and listed in the Permits and License Tax paid file, with a Berkeley business street address."
